This research evaluated the low temperature creep compliance and tensile strength properties of Wisconsin mixtures. Creep compliance and tensile strength data were collected for 16 Wisconsin mixtures representing commonly used aggregate sources and binder grades. Engineering and statistical analyses were performed on the data to provide recommendations for using measured mechanical properties in thermal cracking analyses with the Mechanistic-Empirical Pavement Design Guide (MEPDG), and to evaluate the thermal fracture resistance of Wisconsin mixtures. Dr. Joishy and a group of internationally recognised contributors, with a focus on interdisciplinary care, cover in question-and-answer format all the important elements of this new speciality of medicine. Covered are pain and symptom management as well as care for physiological, emotional, social, and spiritual well being of the patient. Quick and practical reference for making on-the-spot decisions in palliative care. Offers solutions to ethical dilemmas facing caregivers in the terminal stages of illness. Perfect for preparing for boards in palliative care. Appropriate for nurses taking hospice nursing qualification exam. Supplemental book for pain management boards. " Identity theft tax refund fraud is a persistent, evolving threat to honest taxpayers and tax administration. It occurs when an identity thief

files a fraudulent tax return using a legitimate taxpayer's identifying information and claims a refund. GAO was asked to review IRS's efforts to combat IDT refund fraud. This report, the first of a series, examines (1) what IRS knows about the extent of IDT refund fraud and (2) additional actions IRS can take to combat IDT refund fraud using third-party information from, for example, employers and financial institutions. To understand what is known about the extent of IDT refund fraud, GAO reviewed IRS documentation, including the Identity Theft Taxonomy. To identify additional actions IRS can take, GAO assessed IRS and SSA data on the timing of W-2s; and interviewed SSA officials and selected associations representing software companies, return preparers, payroll companies, and others. " The versatile offspring of an extended family of multiple chip companies, today's MIPS chips are everywhere. They power everything from video games, network routers, laser printers, and set-top boxes, to high-performance workstations. This book brings together this extraordinary proliferation of form and functionality, offering embedded systems programmers and designers unique, eminently practical insights into MIPS. It covers how MIPS started, the principles at the root of the RISC revolution, the full details of the MIPS instruction set, and how these details together constitute a full operating system ready to be put to work in hundreds of ways. The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government. Identity theft tax refund fraud is a persistent, evolving threat to honest taxpayers and tax administration. It occurs when an identity thief files a fraudulent tax return using a legitimate taxpayer's identifying information and claims a refund. GAO was asked to review IRS's efforts to combat IDT refund fraud. This report, the first of a series, examines (1) what IRS knows about the extent of IDT refund fraud and (2) additional actions IRS can take to combat IDT refund fraud using third-party information from, for example, employers and financial institutions. To understand what is known about the extent of IDT refund fraud, GAO reviewed IRS documentation, including the Identity Theft Taxonomy. To identify additional actions IRS can take, GAO assessed IRS and SSA data on the timing of W-2s; and interviewed SSA officials and selected associations representing software companies, return preparers, payroll companies, and others. IRS estimated it prevented \$24.2 billion in fraudulent identity theft (IDT) refunds in 2013, but paid \$5.8 billion later determined to be fraud. Because of the difficulties in knowing the amount of undetected fraud, the actual amount could differ from these point estimates. IDT refund fraud occurs when an identity thief uses a legitimate taxpayer's identifying information to file a fraudulent tax return and claims a refund. GAO was asked to review IRS's efforts to combat IDT refund fraud. This report, the second in a series, assesses (1) the quality of IRS's IDT refund fraud cost estimates, and (2) IRS's progress in developing processes to enhance taxpayer authentication. GAO compared IRS's IDT estimate methodology to GAO Cost Guide best practices (fraud is a cost to taxpayers). To assess IRS's progress enhancing authentication, GAO reviewed IRS documentation and interviewed IRS officials, other government officials, and associations representing software companies, return preparers, and financial institutions. Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries. "The

overarching purpose of this manual, reflecting the essential goals of hospice, is to help maximize the quality of living and dying of patients during the last phase of life. It will be through disciplined clinical uniformity and standardized practices that personalized, tailored care can then be aptly applied. And with that, hopes for individual epiphany may have the chance to be realized as those who entrust their care to us meet their earthly ends. With due regard for the complexities of peoples' lives, especially during severe illness, it is premised that identification and understanding of discrete situations (intertwined and enmeshed as they may be) will promote the elaboration of a care plan that will have the greatest likelihood of meeting these worthy ends"-- Complex and rapid scientific and technological advances have made it difficult for dental practitioners to stay current in one field, let alone more than one. An interdisciplinary approach is necessary for best utilizing new and existing techniques to decrease practitioner frustration and increase patient benefits. Hospice Quickflips© can be used as a reference for documentation, hospice eligibility, including LCDs, IDT basics (including the physician role), HIS, criteria for respite, GIP and continuous care. This resource can be a teaching tool for new employees and hospice managers. The book highlights the research contributions of the interdigitated (IDT) sensors over a period of two decades in the field of sensing technology. It presents theory, design, and practical realization of the IDT sensors working over wide frequency range for scientific, industrial, and consumer applications. The IDT sensors have been widely investigated for wide range of sensing applications including agriculture, environmental monitoring, structural health monitoring, health care, food and beverage testing, testing of dielectric material, proximity sensing, microfluidic application, automatic dispensing system etc. Hence, importance of IDT sensors is growing continuously for future applications. As such, it offers a key reference guide on IDT sensors for students, applied physicists, material scientists, engineers, sensors designers and technicians. The Hospice Companion is a guide to the processes of care during the intensive, interpersonal experiences of hospice work. This resource highlights the mission and values of modern-day hospice through the individual and combined efforts of the field's most valuable asset, the hospice professional. This easy-to-navigate clinical decision support tool for caregivers of those with life-limiting illnesses allows for personal and professional growth and a deeply gratifying sense of accomplishment as you proceed in the all-important work of caring for the dying. The third edition of The Hospice Companion features a thoroughly current guide to clinical processes and symptom management, providing hospice professionals with a concise summary of changes that have influenced clinical practice over the last several years. Moreover, feedback from hospice social workers has been incorporated into the section on personal, social, and environmental processes and guidance on integrative and non-pharmacologic interventions have been added.
