Did you know that Jasons and Tracies crash more cars than Jacquelines and Damons? Or

that a boomerang can be used to repair a knackered clutch? Have you ever wanted to visit a naked car show, wondered what it's like to drive on the world's most dangerous road, or receive the world's most expensive speeding ticket? Want to read about flying cars, amphibious cars, or atomic cars? What about the Accord that can actually strike a chord, or the love car park? Dip inside to find all these plus stacks of other stuff, including cars in films, cars on TV, cars in songs - even cars as coffins. Top Gear: Motor Mania is a car book like no other. It's full of the strangest stories, fascinating facts and spectacular stats - a must for any car nut. Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an

expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Highway Traffic Safety Administration and the Insurance Institute for Highway Safety -Warranty information and more. For decades Ethel Davis Hopper, known by everyone around town as a poison-dripper and a control freak, has hosted family reunions in her little slice of beautiful northern Vermont for what has burgeoned into five generations of Davis and Hopper offspring. This year's reunion will be different, though: she's planning to host her own living funeral. The extended family, described by Ethel's favorite granddaughter as people who cluster themselves in three factions, "like bunches of Sunnis, Shias, and Kurds," plans to gather at Ethel's dream home overlooking the quaint village, despite their confusion as to what the longtime organizer has in store for them. Even the far-flung and estranged Hopper clan intends to show up this year, mostly because they wouldn't miss the old harridan's send-off to the world. As the reunion approaches, this richly textured, dark yet comic novel reveals generations of family secrets and the inbred dysfunction that accompanies that history, much of it told through the journals of Ethel's late husband, Lyle. In her finest melodrama to date, Ethel serves up guilt-trips, barbs, and a self-serving, revisionist view of life with her loving husband to her long-suffering offspring. Come and see how much fun a Family Reunion can be. Our

own families will seem tame by comparison. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
