<http://www.cdxauto.com/ContactUs> to access a list of international CDX Automotive Account Managers. Suspension and Steering Tasksheet Manual for NATEF Proficiency is designed to guide automotive students through the tasks necessary to meet National Automotive Technicians Education Foundation (NATEF) requirements for National Institute for Automotive Service Excellence (ASE) Standard 4: Suspension and Steering. Organized by ASE topic area, companion tasks are grouped together for more efficient completion and are clearly labeled with CDX and NATEF task numbers and the NATEF priority level to help students easily manage responsibilities. This manual will assist students in demonstrating hands-on performance of the skills necessary for initial training in the automotive specialty area of suspension and steering. It can also serve as a personal portfolio of documented experience for prospective employment. Used in conjunction with CDX Automotive, students will demonstrate proficiency in suspension and steering fundamentals, diagnosis, service, and repair. Auto Suspension and Steering provides a thorough explanation of the design, construction, and operation of these modern vehicle systems. Basic theory is followed by detailed instructions for logically diagnosing, repairing, and replacing suspension and steering components. Use of the latest diagnostic equipment for troubleshooting is emphasized. This text is a valuable resource for anyone who needs a thorough understanding of today's automotive suspension and steering systems, including those preparing for ASE Certification Test A4, Suspension and Steering. The text is correlated to the Suspension and Steering section of the NATEF Task List. Detailed information on troubleshooting and servicing electronically controlled suspension and steering systems is included. Wheel alignment procedures are covered in depth. Optional digital platform including premium online text, shop manual, workbook, videos, animations, instructional content, and course management tools is available. " OVERVIEW: a. Now in striking full color, the sixth edition helps users develop a strong foundation in electricity and electronics, power train, steering and suspension, brakes, and accessories systems and presents introductory material on servicing, safety, tools, and preventive maintenance. This edition is updated with full coverage of ASE Education Foundation competencies and the latest technology, including 2014 J1939 updates and access tools, Wingman radar, CMS, and Allison TC10 transmissions (introduced in 2013). The book's proven pedagogy is enhanced by extensive sets of review questions and over 1700 full-color photographs and pieces of art that help readers visualize key concepts and servicing procedures. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. This updated edition covers only five years to allow more detailed instruction and features individual indexes for easy reference of each make and model. Includes nearly 3,000 drawings and photographs and thousands of tables and specifications. This text covers both the theory and procedures related to the diagnosis and service of automotive suspension and steering systems, using a unique two-volume approach to optimize learning in both the classroom and the auto shop. The first volume (Classroom Manual) details the theory and application of suspension and steering systems, while the second (Shop Manual) covers real-world symptoms, diagnostics, and repair information. Known for its comprehensive coverage, accurate and up-to-date details, and abundant illustrations, the text is an ideal resource to prepare for success as an automotive technician or pursue ASE certification. Now updated with extensive information on new and emerging technology and techniques—including hybrid and electric vehicles, tire plus sizing, and computer-controlled suspensions—the Sixth Edition also aligns with area A4 of the ASE Education Foundation 2012 accreditation model, including job sheets correlated to specific AST and MAST tasks. Ideal for aspiring and active automotive professionals, TODAY'S TECHNICIAN: AUTOMOTIVE SUSPENSION & STEERING SYSTEMS, Sixth Edition, equips readers to confidently understand, diagnose, and repair suspension and steering systems in today's automobiles. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
