Examines why public administration's literature has failed to justify the profession's legitimacy as an instrument of governance Michael Harmon employs the literary conceit of a Final Exam, first "written" in the early 1930s, in a critique of the field's answers to the legitimacy question. Because the assumptions that underwrite the question preclude the possibility of a coherent answer, the exam should be canceled and its

question rewritten. Envisaging a public administration no longer hostage to the legitimacy question, Harmon explains how the study and practice of public administration might proceed from adolescence to maturity. Drawing chiefly from pragmatist philosophy, he argues that despite the universal rejection of the "politics/administration" dichotomy on factual grounds, the pseudo-problem of legitimacy nonetheless persists in the guise of four related conceptual dualisms: 1) values and facts, 2) thinking and doing, 3) ends and means, and 4) theory and practice. Collectively, these dualisms demand an impossible answer to the practical question of how we might live, and govern, together in a world of radical uncertainty and interdependence. Only by dissolving them can the legitimacy question (Woodrow Wilson's ghost) finally be banished, clearing away the theoretical debris that obscures a more vital and useful conception of governance.

This study guide uses multiple-choice and short-answer questions to test your students' knowledge of trademark and unfair competition law doctrine. Each short-answer question (designed to be answered in no more than fifteen minutes) is followed by a thoughtful, yet brief, model answer. Q & A: Trademark and Unfair Competition also includes a comprehensive topical index. Answers job hunters' questions about resumes, networking, interviews, personal appearance, temporary positions, and job offers This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT).
