**The Quirks & Quarks Question Book** Aug 09 2021 • Is there really such a thing as a blue moon? • What time is it at the North Pole? • Why don't woodpeckers get concussed? • Why don't snorers wake themselves with the racket they make? • Do insects sleep? These are just a few of the intriguing questions asked and answered in *The Quirks & Quarks Question Book*, the first question and answer book to come out of CBC Radio's enormously popular weekly science program. *Quirks & Quarks* producers have combed through ten years' worth of archives to find the most puzzling questions – or the most fascinating answers to apparently simple questions – from the program's Question of the Week segment or its once-a-season all-question show. The scientists and researchers with the answers (many of whom updated their answers for the book in light of new research findings) come from all scientific disciplines and all parts of the country. What they have in common is their ability to explain serious, complicated science in layman's terms. This isn't science made simple, but science made understandable. Introduced by the program's host for the past ten years, the genial and ever-curious Bob McDonald, *The Quirks & Quarks Question Book* has the answers to questions you may never have thought to ask (why does Uranus spin on a different axis from all the other planets in our solar system?) or have spent idle time wondering about (why is there a calm before a storm?). Whether you want to know if you can sweat while you swim or what the view would be like if you could travel at the speed of light, or perhaps you just want to peruse the latest scientific thinking on a wide range of topics, *The Quirks & Quarks Question Book* has the answer. *Quirks & Quarks* has been keeping Canadians up to date on the world of science for more than 25 years. Every week, the program presents the people behind the latest discoveries in the physical and natural sciences. The program also examines the political, social, environmental, and ethical implications of new developments in science and technology. Over its lifetime, *Quirks & Quarks* has won more than 40 national and international awards for science journalism.

[101 Questions and Answers on the Eucharist](#) May 18 2022 In this book Giles Dimock answers some the most commonly asked questions about the Eucharist that have been posed to him in his preaching and teaching. He starts off with questions on the Jewish background of Eucharist and then examines the Last Supper and its theology in the light of the Paschal Mystery. Some of the other questions deal with transubstantiation, sacrifice, Real Presence, communion, and intercommunion. Fr. Dimock's answers are both practical and ecumenical. The questions range from the straightforward Why is the Eucharist called Holy Communion, What is Forty Hours, to the more involved What is said about the Eucharist in the Code of Canon Law? Father Dimock places the teaching of the Church on the Eucharist in conciliar and papal documentation. Here is a book, appropriately appearing at the culmination of the Year of the Eucharist, that will satisfy the spiritual as well as theological curiosity of college students and seminarians studying the Eucharist, as well as probing, informed lay people. +
