The Beginner's Guide to Fasting Mar 30 2020 God created the human body as a finely tuned instrument of enormous power, but it requires fuel to operate. To make sure that body gets enough fuel, God created in humans an appetite

for food, which we call "hunger." So why would anyone ever ignore hunger and choose not to eat? Going without food for spiritual reasons is called fasting, a spiritual discipline with a long and important history in Christianity. When accompanied by earnest prayer, fasting demonstrates a believer's sincerity to God. In *The Beginner's Guide to Fasting*, beloved teacher-theologian Elmer Towns introduces the basics to those who may have never fasted before and reviews the fundamentals for seasoned intercessors. Dr. Towns gives an overview of fasting from the Old and New Testaments and answers questions about fasting related to physical health, social interaction, spiritual warfare, and much more. *The Beginner's Guide to Fasting* is an essential handbook for all who long to draw closer to God through biblical spiritual disciplines.

Old Age Mar 03 2023 Vanity Fair columnist Michael Kinsley escorts his fellow Boomers through the door marked "Exit." The notorious baby boomers—the largest age cohort in history—are approaching the end and starting to plan their final moves in the game of life. Now they are asking: What was that all about? Was it about acquiring things or changing the world? Was it about keeping all your marbles? Or is the only thing that counts after you're gone the reputation you leave behind? In this series of essays, Michael Kinsley uses his own battle with Parkinson's disease to unearth answers to questions we are all at some time forced to confront. "Sometimes," he writes, "I feel like a scout from my generation, sent out ahead to experience in my fifties what even the healthiest Boomers are going to experience in their sixties, seventies, or eighties." This surprisingly cheerful book is at once a fresh assessment of a generation and a frequently funny account of one man's journey toward the finish line. "The least misfortune can do to make up for itself is to be interesting," he writes. "Parkinson's disease has fulfilled that obligation."
