**Calling All Heroes** Apr 23 2022 The euphoric idealism of grassroots reform and the tragic reality of revolutionary failure are at the center of this speculative novel that opens with a real historical event. On October 2, 1968, 10 days before the Summer Olympics in Mexico, the Mexican government responds to a student demonstration in Tlatelolco by firing into the crowd, killing more than 200 students and civilians and wounding hundreds more. The Tlatelolco massacre was erased from the official record as easily as authorities washing the blood from the streets, and no one was ever held accountable. It is two years later and Nestor, a journalist and participant in the fateful events, lies recovering in the hospital from a knife wound. His fevered imagination leads him in the collection of facts and memories of the movement and its assassination in the company of figures from his childhood. Nestor calls on the heroes of his youth—Sherlock Holmes, Doc Holliday, Wyatt Earp, and D'Artagnan among them—to join him in launching a new reform movement conceived by his intensely active imagination.

**The Cockroach Combat Manual II** Apr 04 2023

In the early 1980s, the author and his associates were evaluating a new cockroach control product in a high-rise housing project. Cockroach populations were high, even though the apartment they were in was squeaky clean. The three small children that shared a twin bed there looked different, but no one was sure why. Dr. Frishman pointed out that they didn't have any eyebrows or lashes, and then he exposed thousands of roaches hiding behind the headboard. Some things you never forget. Having Paul Bello, an industry expert himself with years of practical experience, team up with Dr. Cockroach makes The Cockroach Combat Manual II a must-read because cockroach control is deserving of our best efforts.

**Juvenile Sex Offender Assessment Protocol-II (J-SOAP-II) Manual** Dec 28 2019 The Juvenile Sex Offender Assessment Protocol-II (J-SOAP-II) is a checklist whose purpose is to aid in the systematic review of risk factors that have been identified in the professional literature as being associated with sexual and criminal offending. It is designed to be used with boys in the age range of 12 to 18 who have been adjudicated for sexual offenses, as well as nonadjudicated youths with a history of sexually coercive behavior. Decisions about reoffense risk should not be based exclusively on the results from J-SOAP-II. J-SOAP-II should always be used as part of a comprehensive risk assessment. Like any scale that is intended to assess risk, J-SOAP-II requires ongoing validation and possible revision, as we learn more about how J-SOAP-II works and about how best to assess the risk of youths who have sexually offended. Because the revised J-SOAP is a new scale, and we are just beginning to collect predictive validity data on it...
