The only multinational business finance text with a managerial emphasis and a chapter on the GFC. Renowned for its authoritative, comprehensive coverage of contemporary international finance, this text trains the future leaders of multinational enterprises to recognise and capitalise on the unique characteristics of global markets. A key function of a manager is to make financial decisions that increase company value: to assist future managers' appreciation of this function and help contextualise it within the organisation, real-world mini-cases are embedded throughout the text. For courses in international finance. Authoritative, comprehensive coverage of contemporary international

finance Renowned for its authoritative, comprehensive coverage of contemporary international finance, Multinational Business Finance trains the leaders of tomorrow's multinational enterprises to recognize and capitalize on the unique characteristics of global markets. Because the job of a manager is to make financial decisions that increase a firm's value, the authors have embedded real-world mini-cases throughout to apply chapter concepts to the types of situations managers of multinational firms face. The 15th Edition attempts to capture the rapid evolution of our global marketplace, taking a closer look at the types of organizations that permeate the widespread arena, competition and opportunities in emerging markets, and how financial leadership can integrate the strategic and financial challenges that global businesses face today. Also available with MyLab Finance By combining trusted author content with digital tools and a

flexible platform, MyLab(tm) personalizes the learning experience and improves results for each student. Note: You are purchasing a standalone product; MyLab Finance does not come packaged with this content. Students, if interested in purchasing this title with MyLab Finance, ask your instructor to confirm the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab Finance, search for: 0134830180 / 9780134830186 Multinational Business Finance Plus MyLab Finance with Pearson eText -- Access Card Package, 15/e Package consists of: 0134796551 / 9780134796550 Multinational Business Finance 0134811895 / 9780134811895 MyLab Finance with Pearson eText -- Access Card -- for Multinational Business Finance Deep coverage and rigorous examination of international corporate finance Multinational

Finance offers an advanced exploration of international corporate finance concepts and operations. Despite its status as one of the most rigorous texts on the topic, this book remains accessible and readable without sacrificing depth of coverage. Sidebars, key terms, essays, conceptual questions, and problems with solutions help aid in the learning process, while suggested readings and PowerPoint handouts reinforce the material and offer avenues for further exploration. This new sixth edition includes Excel templates that allow students to use real-world tools in a learning environment, and the modular structure facilitates course customization to individual objectives, interests, and preparatory level. The emphasis is on the basics of financial management, but coverage includes unique chapters on treasury management, asset pricing, hedging, options, and portfolio management in addition to traditional finance topics. International finance is

a diverse field with myriad specialties and a vast array of possible interests. This book allows students to view the field through the lens of a financial manager with investment or financial options in more than one country to give them a practical feel for real-world application. Understand the nature and operations of international corporate finance Evaluate opportunities, costs, and risks of multinational operations See beyond the numbers and terminology to the general principles at work Learn the markets, currencies, taxation, capital structure, governance, and more Comprehensive, adaptable, and rigorously focused, this book gives students a solid foundation in international corporate finance, as well as a sound understanding of the tools and mechanics of the field. Designed for MBA and advanced undergraduate courses, Multinational Finance provides the deep coverage so essential to a solid education in finance. NOTE: This loose-leaf,

three-hole punched version of the textbook gives you the flexibility to take only what you need to class and add your own notes -- all at an affordable price. For loose-leaf editions that include MyLab(tm) or Mastering(tm), several versions may exist for each title and registrations are not transferable. You may need a Course ID, provided by your instructor, to register for and use MyLab or Mastering products. For courses in international finance. Never HIGHLIGHT a Book Again Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies: 9780872893795. This item is printed on demand. Multinational Enterprise and Transnational Regions offers an innovative approach to the

study of the history of transnational economic regions. The Rhine valley is such a region comprising the cities and areas along the Rhine river and its tributaries. The transition from coal to oil that unfolded between 1945 and 1973 rapidly transformed the region, shattering some of the old river-based connections and creating new ones with the introduction of large-scale cross-border oil pipelines. Multinational enterprises shaped these new regional connections but divergent national government responses gave rise to differentiated development in different parts of the Rhine valley. *Multinational Enterprise and Transnational Regions* argues that processes of regional change should be understood from transnational interconnections rather than from local or national perspectives. This book uses a transnational business history methodology to tease out the region's transformation and to circumvent the national bias in public sources. It will be of

relevance to academics and researchers with an interest in regional and transnational European history, international business, environmental history, and business history, as well as practitioners interested in the oil industry, energy and energy history, business history and international business, and associated disciplines. NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Virtually all of the testable terms, concepts, persons, places, and events

from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific.

Accompanys: 9781424068739 . First published in 1998, this influential volume entered the debate on Foreign Direct Investment in the UK and focuses on the role of Multinational Enterprises (MNEs) in the service rather than manufacturing and primary sectors. While the significance of the service industry had been recognised (exceeding 60% of total GDP in some countries at the time of original publication), the role of FDIs has not. Joanne Roberts thus contributed to a woefully under researched field, covering areas including international trade, the organisational theory of the firm and the UK business sector. An in-depth treatment of the international financial arena Multinational Finance, Fifth Edition assumes the

viewpoint of the financial manager of a multinational corporation with investment or financial operations in more than one country. This book provides a framework for evaluating the many opportunities, costs, and risks of multinational operations in a manner that allows readers to see beyond the math and terminology surrounding this field to realize the general principles of multinational financial management. Logically organized and written in a clear, non-technical style, this book includes information on international finance topics such as foreign exchange, currency and derivatives markets, currency risk (transaction, operating, and translation) management, country risk, international taxation, capital structure, cost of capital, and international portfolio diversification. It also offers unique chapters on multinational treasury management, the rationale for hedging currency risks, options on real assets, international corporate governance, asset

pricing, and portfolio management. Emphasizes the managerial aspects of multinational finance with graphs, figures, and the use of numerous real-world examples Expands on the treatment of parity disequilibria to include exchange rate expectations that differ from parity and a project's operating exposure to currency risk Provides an overview and comparison of the various derivative instruments and their use in risk hedging Contains valuable insights on valuation and management of a multinational corporation's investments If you're looking for the best way to gain a firm understanding of multinational finance, look no further than the fifth edition of this classic text. Written by the authors of the market-leading classic, "Multinational Business Finance, " this book provides authoritative coverage and lucid explanations of the complex international finance landscape - in a focused and streamlined presentation especially geared toward an undergraduate audience.

Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780136096689 . For courses in International Finance. Authoritative, Comprehensive Coverage of Contemporary International Finance Renowned for its authoritative, comprehensive coverage of contemporary international finance, Multinational Business Finance trains the leaders of tomorrow's multinational enterprises to recognise and capitalise on the unique characteristics of global markets. Because the job of a manager is to make financial decisions that increase firm value, the authors have embedded real-world mini-cases throughout to apply chapter concepts to the types

of situations managers of multinational firms face. With eBooks you can: search for key concepts, words and phrases make highlights and notes as you study share your notes with friends eBooks are downloaded to your computer and accessible either offline through the Bookshelf (available as a free download), available online and also via the iPad and Android apps. Upon purchase, you'll gain instant access to this eBook. Time limit The eBooks products do not have an expiry date. You will continue to access your digital ebook products whilst you have your Bookshelf installed. In this updated fourth edition, author Maurice Levi successfully integrates both the micro and macro aspects of international finance. He successfully explores managerial issues and focuses on problems arising from financial trading relations between nations, whilst covering key topics such as: \* organization of foreign exchange markets \* determination of exchange

rates \* the fundamental principles of international finance \* foreign exchange risk and exposure \* fixed and flexible exchange rates. This impressive new edition builds and improves upon the popular style and structure of the original. With new data, improved pedagogy, and coverage of all of the main developments in international finance over the last few years, this book will prove essential reading for students of economics and business. A thorough introduction to corporate finance from a renowned professor of finance and banking As globalization redefines the field of corporate finance, international and domestic finance have become almost inseparably intertwined. It's increasingly difficult to understand what is happening in capital markets without a firm grasp of currency markets, the investment strategies of sovereign wealth funds, carry trade, and foreign exchange derivatives products. International Corporate Finance offers thorough

coverage of the international monetary climate, including Islamic finance, Asian banking, and cross-border mergers and acquisitions. Additionally, the book offers keen insight on global capital markets, equity markets, and bond markets, as well as foreign exchange risk management and how to forecast exchange rates. Offers a comprehensive discussion of the current state of international corporate finance Provides simple rules and pragmatic answers to key managerial questions and issues Includes case studies and real-world decision-making situations For anyone who wants to understand how finance works in today's hyper-connected global economy, International Corporate Finance is an insightful, practical guide to this complex subject. The role of international banks within the developed economies has come under increasingly hostile public scrutiny, yet little attention has been paid to the structure and purpose of the banks themselves. Most

existing studies concentrate on the part played by international banks as intermediaries in the domestic and international economy, failing to consider the foremost concern of the banks themselves - their success as business enterprises. This book examines the practical problems faced by the Universal Multinational banks (UMNBs) in the fields of strategic planning and business development. It explains the common constraints encountered by the UMNBs, showing that, whether they like it or not, current market pressures are governing their policies in all the developed economies. Through studying the management structures and business policies of these banks this book provides a much clearer picture of their activities in the world economy. Initially, it concentrates on the UMNBs of the USA since they have provided a strategic model for other global banking concerns. The UMNBs of Japan, Britain, France, Germany, Canada and

Switzerland are then discussed to establish their similarities and differences: case studies are included at the end of each chapter to illustrate and reinforce the points made in the preceding text. Although written in 1984 the author successfully predicted many of the subsequent developments in the field of information technology and competition in world markets, which led to the emergence of global financial enterprises. This Value Pack consists of Multinational Business Finance, 11/e by Eiteman/Stonehill/Moffett (ISBN: 9780321449566); Exchange Rates and International Finance, 4/e by Copeland (ISBN: 9780273683063) Access Card Package Package consists of: \*0134472136 / 9780134472133 Fundamentals of Multinational Finance\*0134626575 / 9780134626574 MyLab Finance with Pearson eText -- Access Card -- for Fundamentals of Multinational Finance
