and charts, size 8.25 x 10.75

Commando motorcycles are
subjected to considerable
confusion surrounding the
selection of an appropriate
workshop manual from the
multitude of originals and
reprints that have recently
flooded the on-line
marketplace. Many of the
reprints found on internet
websites are from 'bedroom
sellers' at enticingly low prices
by individuals that really have
no idea what they are selling.
Many are nothing more than
poor quality comb-bound
photocopies that are scanned
and printed complete with
greasy pages and thumbprints

and, as such, are deceptively
described as 'pre-owned'. In
addition, they are often
advertised for the incorrect
series and/or model years of
motorcycles. The Norton
Commando model range is
especially subjected to
incorrect identification by
these 'bedroom sellers' and you
are encouraged to read the
paragraph below to help
identify the correct manual for
your model. During the 1968 to
1978 Commando model run
there were 4 different manuals
published by the factory: The
original 52 page 750cc manual
(part number 06-3062) is
applicable to the 1968 to 1970
models ONLY that were fitted
with the external rev-counter

drive and/or the Atlas style exhaust (refer to ISBN 9781588502421). This original manual was followed by part number 06-3419 which covers the 1970 to 1973 750cc models ONLY. The next, and most comprehensive manual, part number 06-5146, was published in 1973 and the 850cc data was added making this manual applicable to the entire range of 750cc & 850cc models from 1970 to 1975 (refer to ISBN 9781588502438). Finally, with the introduction of the electric start, left side gear change, rear disc brake Mark 3 models in 1975, a separate manual part number 00-4224 was published which is specific to

the 1975 to 1978 MKIII 850cc series from engine no. 325001 & frame no. F125001. We are pleased to offer this reproduction of the Factory Workshop Manual 00-4224 to owners of the 1975 onwards Commando Mark 3 models and we hope that the explanation above removes any doubt regarding which manual is correct for a particular series of Norton Commando model. Models and model years covered in this manual are: - Interstate: 828cc 1975 -1978 - Roadster: 828cc 1975-1978 - Hi-rider: 828cc 1975-1978 - Interpol: 828cc 1975-1978 IMPORTANT: Owners of 1968 to 1970 750cc Commando models that were fitted with

the external rev counter drive and/or Atlas style exhaust system are directed to our workshop manual ISBN 9781588502421 and owners of the 1970 to 1975 750cc & 850cc models would require our workshop manual ISBN 9781588502438. VelocePress.com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product. the most misunderstood aspect
of motorcycle performance.
This book, by America's
premier suspension specialist,

makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of

chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.
