Our homes are 'gagged' with possessions, which makes it difficult to keep everything organized and well arranged. Guilt about and emotional attachments to possessions make the decluttering process seems unobtainable. But contrary to believe, it is possible! In this book, decluttering expert guides you step by step through the process of organizing your home and making decluttering in real life a painless and fun exercise. Author dives deep into ways to provide you with workable and tried-and-true solutions to release you from the cluttered mess in your home for good. The book contains valuable ideas and tips on how to organize your home with the outcome of your entire life changing for the better on every level. Consequently, you will feel more confident and more cheerful, knowing that you have regained control over your life to discard the past and all aspects that robbed you from emotional joy. How great! This book will enable you to live by your own rules from now on! In this book you will learn: * Possible reasons why you find it difficult to declutter * How to start organizing your home * Guided steps to organize your home * Declutter your house yourself * Valuing space over clutter and money * Decluttering room by room * Minimalism in real life * Helping others declutter * How to turn your clutter into cash And a heck of a lot more! This book contains proven steps and strategies on how to easily get into the routine of cleaning and organizing your house. Broken down by the hour, you will have a list of jobs to tackle, and a surefire way of completing the task at hand: cleaning your home. Whether you want to get your house cleaned in three days, over a long weekend, or work just an hour a day Monday through Saturday, this plan will work. The choice is entirely yours. Furthermore, you don't necessarily have to do each step in the order given. While it was written this way, consider it more a tool to help you achieve your goals than a concrete, how-to guide. There will be times when a simple cleaning just will not do. If your walls are faded and dull looking, you may want to consider painting them. If your appliances are old and no matter how much you scrub them they won't come clean of stains, you may want to consider replacing them. These types of decisions will be personal ones based on what you want your home to look like and what your family budget looks like. If a cleaning will suffice, then this is the book for you. There is an alphabetical shopping list in the back that tells you exactly what items you will need to complete all of these task. That does not mean that you are limited to using just these items. Some people find that other items also come in handy. Feel free to add to the list as you see fit. Also, use the brands that you feel are best for the job and for your family. Some people don't like to use chemicals in their house. If this is the case with your family, there are all-natural alternative cleaning products on the market. If you are new to cleaning, maybe you just got your first apartment

and don't really know which cleaning products are best, ask a friend what they use. The point is, there is no one right way or right product to clean your house. The goal is to just accomplish the task with as little effort as possible. This book will show you how. Have you ever wondered exactly how high to hang your artwork? How about the light fixture over your dining table? Do you know how to ideally size a rug for any room, or the best way to arrange your furniture? Trusted designer Vern Yip answers these questions, and more, by revealing the right formulas and measurements that can make any room feel just "right." And once you know these key design principles, you're free to confidently create a home that uniquely celebrates your needs and style. Vern shares his favorite insider tips, and opens his doors to show how he's made them work in his own beloved homes.
