New York Times bestselling author Lauren Tarshis tackles the historic grizzly bear attacks in Glacier National Park in this latest installment of the groundbreaking I Survived series. No grizzly has ever killed a human in Glacier before . . . until tonight. Eleven-year-old Melody Vega and her family come to Glacier National Park every year, and it's always been a place where she can forget her troubles. But this year is different. With Mom gone, every moment in the park is a heartbreaking reminder of the past. Then Mel comes face-to-face with the mighty grizzly. Now her only thought is one of survival. Mel will soon be a part of one of the most tragic seasons in the history of America's national parks - a summer of terror that will forever change ideas about how grizzlies and humans can exist together in the wild. Carlo Mollino (1905-1973) was one of the most inspired mid-20th-century architects and designers. In a career that spanned more than four decades, Mollino designed buildings, homes, cars, aircraft, womens fashion, and theater sets. He was a renaissance man who sought to articulate movement and sensuality in his designs. Even more compelling are the magically surreal Polaroid images Mollino made in his Turin studio during the last 14 years of his life, seen here in the first-ever collection of Mollinos carefully honed erotic photographs of women.

From 1,500 works, the Ferraris have culled over 250 representative images in which Molino posed his models in evocative clothing, staged the backdrops, and finally, altered the photos with a microscopic paintbrush to attain his ideal view of the female form. Only a few of Mollinos Polaroids have ever been viewed by the public.

GUARDIANS INC.: THE CYPHER is two stories in one. A glimpse into a multinational company that is in reality the oldest of secret societies, one that spans close to seven thousand years of existence, weaving in and out of history, guiding and protecting humanity from creatures and forces that most of us believe are only mythology and fairy tales. The other is the story of Thomas Byrne, a young man thrust into secrets he shouldn't be aware of and dangers he shouldn't face but, that he ultimately will, for he is a Cypher. The only one who can steer humanity's future. The ultimate conspiracy theory is that Magic is real. Kept in check by technology but, every five hundred years the balance can shift and, if it does, technology will fail and those creatures we've driven into myth will come back with a vengeance. To protect the present, Guardians Incorporated needs to know the future. Pandora Ann Phillips' life is just normal-crazy. Her mom's psychic, her dad's mom is a snob, her mom's parental units are 'too down to earth' and her best friends are newlyweds. Okay, so her best friends being newlyweds isn't really abnormal, but living with them in a cramped two-

bedroom apartment definitely is. Sex, sex, sex, is totally on their brains. Actually, it's not only on their brains, but it's on the kitchen table, couch, on top of the washer...well, you get the picture. Being a celibate (not by choice, mind you) full-time college student, and working as an almost full-time barista, Pandora can't afford to lose anymore sleep. So, she decides to seek out a new place to lay her head. Enter three 'droll worthy' guy models that are looking for a fourth roommate, and they want her...and won't take no for an answer. Romantic hilarity ensues as Pandora's life turns completely upside down, and she begins to wonder if it will ever be the same again!

Sage is spiraling toward self-destruction and Dawn isn't sure if she's the right person to save him. Aside from picking up the pieces of their burgeoning relationship, they have to negotiate the mysterious new photographer assigned to Dawn's story, as well as vindictive promoters and demonic groupies they thought they'd never see again. And the only thing worse than having to uphold a bargain with the prince of darkness is not remembering how you're supposed to pay it back. When Lauren Monroe first laid eyes on Michael Delaney back in high school, she had every reason to stay away from him; within minutes of their first encounter, his volatile actions confirmed his notorious reputation. But Lauren saw something in him that caused her to question his bad-boy persona, and against her better judgment, she took a chance. She had no way of knowing that the unlikely friendship they formed would become so important to her. Or that it would end so painfully. Eight years later, when Lauren begins her new job at Learn and Grow Day Care, Michael is the last person she expects to see. Refusing to revisit the hurt and confusion of their past, Lauren vows to keep her distance from him. But staying away from Michael proves to be more difficult than she thought, despite her lingering grief

and her instincts for self-preservation. As Lauren and Michael recall the friendship that changed them forever and the events that tore them apart, will they finally be able to heal? Or will the ghosts of Michael's past prove to be too much to overcome? Paris, 1890. When Sherlock Holmes finds himself chasing an art dealer through the streets of Paris, he's certain he's smoked out one of the principals of a cunning forgery ring responsible for the theft of some of the Louvre's greatest masterpieces. But for once, Holmes is dead wrong. He doesn't know that the dealer, Theo Van Gogh, is rushing to the side of his brother, who lies dying of a gunshot wound in Auvers. He doesn't know that the dealer's brother is a penniless misfit artist named Vincent, known to few and mourned by even fewer. Officialdom pronounces the death a suicide, but a few minutes at the scene convinces Holmes it was murder. And he's bulldog-determined to discover why a penniless painter who harmed no one had to be killed—and who killed him. Who could profit from Vincent's death? How is the murder entwined with his own forgery investigation? Holmes must retrace the last months of Vincent's life, testing his mettle against men like the brutal Paul Gauguin and the secretive Toulouse-Lautrec, all the while searching for the girl Olympia, whom Vincent named with his dying breath. She can provide the truth, but can anyone provide the proof? From the madhouse of St. Remy to the rooftops of Paris, Holmes hunts a killer—while the killer hunts him. From

From the author of the National Book Award finalist *Black Leopard, Red Wolf* and the WINNER of the 2015 Man Booker Prize for *A Brief History of Seven Killings* "An undeniable success." — *The New York Times Book Review* A true triumph of voice and storytelling, *The Book of Night Women* rings with both profound authenticity and a distinctly contemporary energy. It is the story of Lilith, born into slavery on a Jamaican sugar plantation at the end of the eighteenth century. Even at her birth, the slave women around her recognize a dark power that they- and she-will come to both revere and fear. The Night Women, as they call themselves, have long been plotting a slave revolt, and as Lilith comes of age they see her as the key to their plans. But when she begins to understand her own feelings, desires, and identity, Lilith starts to push at the edges of what is imaginable for the life of a slave woman, and risks becoming the conspiracy's weak link. But the real revelation of the book-the secret to the stirring imagery and insistent prose-is Marlon James himself, a young writer at once breath-

takingly daring and wholly in command of his craft. Georgia burns. Sherman's Yankees are closing in. Will the women of LaGrange run or fight? Based on the true story of the celebrated Nancy Hart Rifles, *The Cotillion Brigade* is a sweeping epic of the Civil War's ravages on family and love, the resilient bonds of sisterhood amid devastation, and the miracle of reconciliation between bitter enemies. "Gone With The Wind meets *A League Of Their Own*." 1856. Sixteen-year-old Nannie Colquitt Hill makes her debut in the antebellum society of the Chattahoochee River plantations. A thousand miles to the north, a Wisconsin farm boy, Hugh LaGrange, joins an Abolitionist crusade to ban slavery in Bleeding Kansas. Five years later, secession and total war against the homefronts of Dixie hurl them toward a confrontation unrivaled in American history. Nannie defies the traditions of Southern gentility by forming a women's militia and drilling it to prepare for Northern invaders. With their men dead, wounded, or retreating with the Confederate armies, only Captain Nannie and her Fighting Nannies stand between their beloved homes and the Yankee torches. Hardened into a slashing Union cavalry colonel, Hugh duels Rebel generals Joseph Wheeler and Nathan Bedford Forrest across Tennessee and Alabama. As the war churns to a bloody climax, he is ordered to drive a burning stake deep into the heart of the Confederacy. Yet one Georgia town—which by mocking coincidence bears Hugh's

last name—stands defiant in his path. Read the remarkable story of the Southern women who formed America's most famous female militia and the Union officer whose life they changed forever. The chest, covered in images of mythical beasts, can only be opened when the fangs of its serpent's-head clasp taste blood. Centuries later, in an Oxford library, a boy touches a strange book and feels something pierce his finger. The volume is blank, wordless, but its paper has fine veins running through it and seems to quiver, as if it's alive. Words begin to appear on the page--words no one but the boy can see. And so unfolds a timeless secret . . . . Ever since the one time Andie Weber threw caution to the wind -

and paid the price for it - she's learned that it's safer and smarter to live life playing by the rules. Now she's got a great apartment, a steady job, and a wonderful boyfriend in Colin; he's sweet, stable, and essentially perfect – except maybe for the fact that his best friend is Chase. Chase McGuire lives his carefree, unstructured life strictly for himself. Dripping sarcasm and oozing wit, he refuses to censor his feelings or opinions for anyone, making no apologies for either and wearing his abrasiveness like a badge of honor. No one has ever gotten under Andie's skin the way Chase does – and vice versa. So when Andie and Chase find themselves forced to take a two-day road trip together, they are already dreading an inevitable all-out war. But as the trip progresses, and the undeniable friction that has always defined their relationship slowly begins to wear away their preconceived notions of each other, Andie and Chase discover they both have a lot to learn about life, courage, happiness, and the age-old battle between logic and love. *Think Differently and Deeply* is a collection of essays written by the faculty, alumni, students, coaches, and partners of St. Andrew's Episcopal School. story of the early days of the Mormon church through the eyes of the woman who saw it all—Emma, the first wife of the prophet Joseph Smith. In 1825, in rural Pennsylvania, Emma Hale marries an itinerant treasure-digger, a man who has nothing but a peep-stone in his pocket and a conviction that he can speak directly to God. His name is Joseph Smith and in a few short years, he will found his own religion, gather zealous adherents by the tens of thousands, and fracture Emma's life and faith. While the Mormon religion finds its feet and runs beyond the grasp of its founder, Emma struggles to maintain her place in Joseph's heart—and in the religion that has become her world. The Mormons make themselves outcasts everywhere they go. Joseph can only maintain his authority by issuing ever-stranger commandments on God's behalf, culminating in an edict that men should marry as many women as they please. The Mormons' adoption of polygamy only sets them further apart, and soon their communities are ravaged by violence at the hands of their outraged fellow Americans. For Emma, things take a more personal toll as Joseph brings in a new wife—a woman whom Emma considers a sister. As Emma's family grows along with Joseph's infamy, she knows there will never be peace until Joseph faces the law. But on the half-wild edge of the frontier, he's more likely to find death at the hands of a vigilante posse than a fair trial. For the sake of her people—and her soul—Emma must convince the

From #1 New York Times Bestseller Vi Keeland, comes a new, sexy standalone novel. Bennett Fox walked into my life on one hell of a crappy

Monday morning. I was late for the first day at my new job—a job I'd now have to compete for even though I'd already worked eight years to earn it, because of an unexpected merger. While I lugged my belongings up to my new office, a meter maid wrote me a parking summons. She'd ticketed a long line of cars—except for the Audi parked in front of me, which happened to be the same make and model as mine. Annoyed, I decided to regift my ticket to the car that had evaded a fine. Chances were, the owner would pay it and be none the wiser. Except, I accidentally broke the windshield wiper while slipping the ticket onto the car's window. Seriously, my day couldn't get any worse. Things started to perk up when I ran into a gorgeous man in the elevator. We had one of those brief moments that only happened in movies. You know the deal...your body lights up, fireworks go off, and the air around you crackles with electricity. His heated stare left me flush when I stepped off the elevator. Maybe things here wouldn't be so bad after all. Or so I thought. Until I walked into my new boss's office and met my competition. The gorgeous man from the elevator was now my nemesis. His heated stare wasn't because of any mutual attraction. It was because he'd saw me vandalize his car. And now he couldn't wait to annihilate his rival. There's a fine line between love and hate—and we shouldn't cross it. We shouldn't—but straddling that line could be so much fun. From the author of the acclaimed *The Pact*,

Like the glorious ghosts of the paintings in the Hermitage that lie at the heart of the story, Dean’s exquisite prose shimmers with a haunting glow, illuminating us to the notion that art itself is perhaps our most necessary nourishment. A superbly graceful novel.” — Chang-Rae Lee, New York Times Bestselling author of *Aloft* and *Native Speaker*

Bit by bit, the ravages of age are eroding Marina's grip on the everyday. An elderly Russian woman now living in America, she cannot hold on to fresh memories—the details of her grown children's lives, the approaching wedding of her grandchild—yet her distant past is miraculously preserved in her mind's eye. Vivid images of her youth in war-torn Leningrad arise unbidden, carrying her back to the terrible fall of 1941, when she was a tour guide at the Hermitage Museum and the German army's approach signaled the beginning of what would be a long, torturous siege on the city. As the

people braved starvation, bitter cold, and a relentless German onslaught, Marina joined other staff members in removing the museum's priceless masterpieces for safekeeping, leaving the frames hanging empty on the walls to symbolize the artworks' eventual return. As the Luftwaffe's bombs pounded the proud, stricken city, Marina built a personal Hermitage in her mind—a refuge that would stay buried deep within her, until she needed it once more. . . . Sex is complex. Humans are simultaneously more similar in their sex development, and more diverse, than is commonly appreciated or understood. Females and males are not made of wildly different ingredients. The potential to have intersex variations—to be born with atypical sex characteristics—exists for all humans in the first few weeks of their prenatal development. 1.7% of people actually go on to be born intersex. However, most of us know little about intersex variations. This is only partly due to their occasional invisibility. Intersex people have historically faced deep social stigma—the assumption that they were simply bizarre aberrations from the human norm. Furthermore, intersex infants have been widely subjected to systematic institutional mistreatment, particularly within medical settings. Finally, some people with intersex variations have simply tried to integrate themselves unnoticed into the socially accepted categories of male and female. Drawing on stories and statistics from the first national study of intersex the book argues for a distinct

'Intersex Studies' framework to address intersex issues and identity-foregrounding people with intersex variations' own goals, perspectives and experiences. Collected in 2015 and arranged in thematic chapters, the data presented here on 272 individuals gives a penetrating account of historically and socially obscured experience. This book is an important and long-overdue contribution to our understanding of human sexuality and a must-read for people with intersex variations, health practitioners, psychologists, advocacy groups, students, and anybody interested in knowing more about our diverse human make-up. Perry Palomino is not what you would call 'ordinary'. For one thing, there's her past which she likes to pretend never happened, and then there's the fact that she sees ghosts. Luckily for her, that all comes in handy when she stumbles across Dex Foray, an eccentric producer for an upcoming webcast on ghost hunters. Even though the show's budget is non-existent and Dex himself is a maddening enigma, Perry is instantly drawn into a world that both threatens her life and seduces her with a sense of importance. Her uncle's haunted lighthouse provides the perfect catalyst and backdrop for a horrific mystery that unravels the threads of Perry's fragile sanity and causes her to fall for a man, who, like the most dangerous of ghosts, may not be all that he seems. Through raw, provocative tidbits, *Dandelion* explores what it means to struggle with a declining mental health in a world where mental health is both stigmatised and trivialised. The poems range from topics of rage and despair to downright silliness, so if you don't know whether to laugh or cry, just laugh until you cry. Exclusive bonus content: a collection of uncomfortably honest personal essays about Gabbie's childhood and relationships. "Leah Smith finally has everything she has ever wanted--except she doesn't. tale for Hamilton! fans. In post-American Revolution New York City, Theodosia Burr, a scholar with the skills of a socialite, is all about charming the right people on behalf of her father—Senator Aaron Burr, who is determined to win the office of president in the pivotal election of 1800. Meanwhile, Philip Hamilton, the rakish son of Alexander Hamilton, is all about being charming on behalf of his libido. When the two first meet, it seems the ongoing feud between their politically opposed fathers may be hereditary. But soon, Theodosia and Philip must choose between love and family, desire and loyalty, and preserving the legacy their flawed fathers fought for or creating their own. Love, Theodosia is a smart, funny, swoony take on a fiercely intelligent woman with feminist ideas ahead of her time who has long-deserved center stage. A refreshing spin on the Hamiltonian era and the characters we have grown to know and love. It's also a heartbreaking romance of two star-crossed lovers, an achingly bittersweet “what if.” Despite their fathers' bitter rivalry, Theodosia and Philip are drawn to each other and, in what unrolls like a Jane Austen novel of manners, we find ourselves entangled in the world of Hamilton and Burr once again as these heirs of famous enemies are driven together despite every reason not to be. Dex Foray has never been anyone's fool - until he missed his chance for happiness with Perry Palomino. Broken and alone, Dex has no choice but to rise from the ashes Perry left behind and find his own path to redemption.

But nothing in Dex's life has ever come easily, especially when there's a dark madness waiting in the wings. Just beyond the Gilded Age, in the mist-covered streets of New York, the deadly Spanish influenza ripples through the city. But with so many victims in her close circle, young socialite Allene questions if the flu is really to blame. All appear to have been poisoned--and every death was accompanied by a mysterious note. Desperate for answers and dreading her own engagement to a wealthy gentleman, Allene returns to her passion for scientific discovery and recruits her long-lost friends, Jasper and Birdie, for help. The investigation brings her closer to Jasper, an apprentice medical examiner at Bellevue Hospital who still holds her heart, and offers the delicate Birdie a last-ditch chance to find a safe haven before her fragile health fails. As more of their friends and family die, alliances shift, lives become entangled, and the three begin to suspect everyone--even each other. As they race to find the culprit, Allene, Birdie, and Jasper must once again trust each other, before one of them becomes the next victim. Just when she thought things were going up... Two years after a devastating breakup, Brittini Mitchell has moved on from Justin Avery—or so she tells herself. But when she returns to Seattle for her best friend's engagement party, Brittini finds herself the victim of a disastrously timed elevator breakdown. She's trapped with the last person she wants to face, and forced to recount the past she desperately wants to forget.

She's going to have to look back... When Brittini left her podunk hometown for a big city college experience at the University of Washington, hooking up with a guy like Justin Avery was not part of her plan. Between Justin's attention-grabbing tattoos, cigarette smoking, and bad boy attitude Brittini quickly chalked him up as "Mr. Wrong." But his charm was unrelenting, and Brittini's decision to give Justin a chance quickly turned into the worst choice she ever made. So that she might be able to move forward. Now she's stuck with Justin—literally—and the complicated web of misunderstandings that tied up the truth for two years is about to unravel.
