Dancing Naked at the Edge of Dawn Christmas Diamonds *The Cinderella Hour* **Genetopia**

"Let Keith Brooke tell his tale in its cogent fullness. It is beyond any facile summary, a minor masterpiece that should usher Brooke at last into the recognized front ranks of SF writers." Locus
The village: a close-knit community where everyone knows everyone else. Here, houses can be grown out of the dirt; livestock and

the sub-human mutts can be changed into something else, something other; and fleshy, drastically mutated Oracles guide humankind on the delicate path of survival. The wildlands: the land between human settlements where animals that are not animals live among plants that are not plants, and people who might not be people live in fear of human intervention. Out here organic AIs grow in the wildlands, either

worshiped or feared; trees sing to each other; and tempting, dark fruit hang from the branches. Out here nothing can be trusted, nothing is necessarily as it seems, and no sane human would ever want to set foot. Out here is Flint's missing sister. Genetopia is the story of a young man in search of his possibly abducted sister in a far future where nano- and biotechnology have transformed and accelerated the evolution of humans and their strangely

altered surroundings. In this world, you can never take anything -- or anyone -- at face value. Illness and contact with the unknown are always to be feared, as viruses re-engineer genes and germ cells, migrating traits from species to species through plague and fever. Humankind lives in isolated communities, connected by trade routes, and always fighting to keep the unclean at arm's length. But if Flint is to find his sister he must brave the fevers, the legendary beasts, the unknown. He must enter strange communities and seek help in the most unlikely places. He must

confront both his own dark past and the future of his kind. He must go into the wildlands. Flint's story is the story of the last true humans, and of the struggles between those who want to defend their heritage and those who choose to embrace the new. But Flint doesn't see it like that: he just wants to find his sister. "I am so here! Genetopia is a meditation on identity - what it means to be human and what it means to be you - and the necessity of change. It's also one heck of an adventure story. Snatch it up!" Michael Swanwick, Hugo award-winning author of *Bones of the Earth* "Keith

Brooke's *Genetopia* is a biotech fever dream. In mood it recalls Brian Aldiss's *Hothouse*, but is a projection of twenty-first century fears and longings into an exotic far future where the meaning of humanity is overwhelmed by change. Masterfully written, this is a parable of difference that demands to be read, and read again." Stephen Baxter, Philip K Dick award-winning author of *Evolution* and *Transcendent* From the bestselling author of *The Elegant Gathering of White Snows* comes a poignant, outrageous, refreshingly liberating story about one woman

whose life takes an unexpected turn.... Meg Fratano has just witnessed the unthinkable: her husband of twenty—seven years making love to another woman. In her bed. And all Meg wanted to do was watch. Quietly, secretly, watch. Then she realized her life would never be the same. Meg isn't sure what she wants, but she knows it's not what she had. After almost three decades of marriage and two children, she has finally awakened to how unhappy she is. Now, with the help of friends old and new, and even her teenage daughter—a former brat who has blossomed into a startlingly wise

young woman—Meg just might break through the chains of everyone's expectations for her and find the strength to take the first step on her own path. To strip away a lifetime of inhibitions. To dance naked at the edge of dawn... Ever since she was a little girl, Paula Devine has dreamed of a romantic Christmas Day proposal like the one her grandmother received back in the day. Instead, her list of disappointing exes gets longer each year. But just as she's ready to give up, Paula begins remodeling the home of an irresistibly sexy client—a man who inspires the kind of

sinful thoughts that could land her on Santa's "naughty" list permanently. If there's one thing rarer than a flawless diamond, it's true love fused with passion. Jeweler Chase McCord had it once, and wondered if that shimmering heat was gone forever. But the beautiful woman who's renovating his home is also overhauling Chase's outlook, tempting him to submit to her honeyed seduction—even if it means losing his heart all over again. 16 years ago, Snow Ashley Gable ran away from Chicago and the grief and betrayal she'd experienced there. Now, at 31, she's coming home - bringing her

successful late-night radio talk show, 'The Cinderella Hour', to the Windy City.
