It's not just a cold February morning that freezes all activity at IIT. The topper of the Computer Science batch is found hanging inside his room . . . locked from the outside. A day later, in a fit of anxiety, his best friend erases his suicide note from his laptop, thereby obliterating the only way that could have led to understanding the reason behind such a catastrophe. The smartest among the group of software experts asked to retrieve it finally gets hold of it, but silently gives up on finding it and withdraws with the stolen suicide letter. What is it about the letter that makes him hide it from the world? Why does he lose himself in the amaranthine ocean of agony and forgets all else on reading it? Love is life-giving, but Destroyed by Ishq explores the other side of love. Are you ready to turn the page? From printing birthday wishes in the newspaper to helping him get into his dream college, Kaushal's father went through countless hardships. Now, it's Kaushal's turn to take his parents' efforts and turn them into success, for himself and them. Through memory losses and no hope for anything, Kikki talks about everything that Kaushal's family went through for him and his struggle to do justice to it. An extraordinary story of an ordinary family. "How it feels to be a bachelor? What all a guy does in social networking sites? How do cell phones and social networking sites play a role in the life of every teenage boy or girl? Well if you're thinking why I am telling you this, then let me tell you, I, Me & Her Forever is about these things. It's a tale about crushes, flings, love, relationships and break ups. What goes in the mind of a boy or a girl when they are about to get committed? What all they do when they are in a relationship? Love turns into madness and obsession. I, Me & Her Forever is the story of Abhishek and Meghna, who were friends for some time and then it turned into serious love. Utterly serious!!! How much serious you will get to know by reading the book, though it was somewhat indifferent of Abhishek, because he was the one against relationships. But you know love is love. It is like gravity. It is inevitable. The book that you hold in your hands is a treasure trove of ideas to set into motion a new generation of learning for architects. As the author is a practitioner of this technology called architecture, he have often felt that globally it is the last field of knowledge that still displays vestiges of a holistic, renaissance attitude of mind. It has not fallen victim to our global love for economic development above all other considerations, and is not always a handmaiden of consumerist culture. Architects are somewhat obsessed with form. Despite this, or in spite of it, the combine and harmonize the field of applied arts with the sciences, the attitudes of engineering optimization with the expression of the visual arts, covering subjects as diverse as chemistry and history! India is possibly the world's largest future market for private sector architects today. If we do not adapt our architectural practice, starting with our architectural teaching practices, we run the clear and present danger of becoming extinct in the race for economic development and urbanization which is truly

sustainable: resilient, sufficient, and equitable. In reading this little gem of a book the author would urge the reader to look beyond formulae and descriptions, and generate an agenda for reform; beyond just the curriculum and towards transformation. As Indian society struggles to understand its architects, the profession owes a duty to itself to remain relevant to social needs and aspirations to create a nation of our dreams. And the author hopes that the beginning of that agenda can be found in the pages of this book, interpreted by every reader individually. Seeing the inclination of Priya's family towards government jobs, he decided to appear for SSC CGLE, one of the toughest exams of India. Does he able to clear it? Does he able to get his love? My chosen tears are better than your imposed smile, Why don't you let me alone to cover that extra mile? This could be your own story written in the third person. Yes, this is a story that many of us can relate to, whether we are students, parents or working professionals. The characters and scenes in the story and the overall plot could seem familiar to many of us. This is not a story that tells you that bad things happen to good people. This is a story of a group of engineering students, from radically different backgrounds, coming together and trying to fit the pieces in the puzzle called life. They try to turn around their lives and twist their fortunes to make everything fall

into place. Caged and chained by societal norms, they end up following the most traversed path. Those fallen breadcrumbs were the façade of the correct path, and they went on a crazy roller coaster ride of laughter, sorrow, fun, suspense and entertainment. And secrets too! What secrets? Read on to find out! “Suddenly, they heard a beautiful song played on Guitar, “Why the world will take decisions on my behalf? When my heart knows exactly where I live, love and Laugh.” “It was around 11:30 pm, and everyone in the house was sleeping when Akku was lamenting over his failed career.” “Lukesh is missing from the college.” “What if Tanmay spills our secret someday? What secret?” The novel is set in the environment of a NATIONAL INSTITUTE OF TECHNOLOGY (NIT) in Surat. There are 20 NITs in India with one in each state. They are under the special act of parliament (the NIT act) and are the most sought after among the bright engineering aspirants after the IITs. Each and every NIT has a very special environment of regionalism, frustration and happiness. It provides a platform to interact and blend with people from all around the country and abroad as there are state specific seats in each institute. Students apart from engineering learn the art of living, the problems in various cultures and sections of the country and surviving in the worst intra college political and social environments. The youth of the country are becoming more and more selfish and are giving themselves in the hands of MNCs or MBAs and all the money government spends in educating the students in the centre sponsored universities goes down the drain if the educated lot does not contribute in the socio-economic and research fields in the country. Here’s a story of how a group of friends, after facing problems in their personal lives, take up a challenging career leaving behind the hefty packages they get in IT companies in the campus placements. And its not over with that, read on to know what happens with them. Some of them come from backward areas; some have average educational qualification; so that you may realize that successful candidates not born with a silver spoon. This book contains the answers to the general doubts we have when we start the preparation for UPSC. From my personal experiences, I have tried to addressed some of the issues and how one can prepare. This book is divided into various chapters which have questions related to 'before UPSC times' i.e. when I failed in IIT even after taking a drop at Kota and my college life where I wasn't sure as to where life will take me, 'during UPSC times' i.e. when I was preparing for the UPSC and 'after UPSC' where questions related to Mussoorie and Hyderabad academies, life of civil servants in general have been answered. I want to put a disclaimer in the beginning itself that this book doesn't cover any part of the UPSC syllabus and this book is just to motivate and help you strategize your way to fight UPSC and any other life struggle for that matter. I would recommend readers not to 'study' this book but 'read' it which means that go through this book at leisure time. Pick up the book whenever you are in doubt, feel depressed or want to quit. This book can be your favorite companion during tough times. You will be able to learn few things from my mistakes, you might laugh at few moments, you may picture yourself as a successful candidate while reading this book. There is no compulsion to complete this book and I believe that you can pick this from any page. The size of book is because I tried addressing as much as I could in this book. Thank you. Jai Hind.
