Race Tech's Motorcycle Suspension Bible Feb 23 2020 Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Pushing the Limit Nov 25 2022 I give you all fair warning; this story is mine. There are many like it, but this one is mine. I am my best friend. It is my life. I am an AIDS survivor and a Marine. I must master my rifle. I must master it as I must master my life. Without me, my rifle is useless; without my rifle, I am useless. I must shoot straighter than my enemy who is trying to kill me. Before God I swear this creed, my rifle and I are defenders of my country. We are masters of our enemy. We are the saviors of my life. So be it, until victory is Americas, and there is no enemy but peace! Be prepared to get pissed off, begin to hate, begin to love, want to get violent. This may cause seizures, cause you to attack somebody, have you attacked, begin to question things, and quite possibly find yourself living a great life in reference to mine. You may also learn how to live without malice in your heart. I would suggest this book be placed in an adults hands, but if youre an addict or if youre thinking of using drugs, read further regardless. I also suggest anyone who is living with HIV/AIDS have a look also. I learned to relinquish my weapons and step aside, can you? I firmly ask you again, do not enter!

Shifting Gears at 50 Nov 13 2021 From the publishers of Motorcycle Consumer News, Shifting Gears at 50 is a one-of-a-kind motorcycling manual

for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time). In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to ride, the importance of taking a road course, venturing out on the first ride, and extending rides to long-distance jaunts. Throughout Part 1 are sidebars by riding- safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and related by returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to the book is provided by best-selling motorcycle author David Hough (author of I-5 Press's *Proficient Motorcycling and Mastering the Ride*). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."
