problems you can take the guesswork out of studying and move forward with  
confidence

mathway statistics problem solver May 05 2023 web free math problem solver

answers your statistics homework questions with step by step explanations  
statistics sat math varsity tutors Dec 20 2021 web this equals 50 of 41 so  
we put 61 over 2 so they have common denominators we can then set  $5k + 31$   
equal to 61 next we subtract the 31 on the left from the 61 on the right  
giving us  $5k + 31$  to get the value of k divided by 1 we divide 31 by 5 giving  
us  $k = 3.5$  last we divide by 1 to give us our answer 3.5
