Assisted Reproductive Technology Jun 19 2022 As more people turn to assisted reproduction, the legal issues surrounding it have become increasingly complex. Beyond representing patients or clinics, numerous legal problems are arising from the technology's application. Disputes in divorce are the most common, but this technology impacts the law in other areas, including personal injury, insurance, criminal law, and estate planning. Drawing from multiple legal sources, this book presents complex information in a direct, balanced and fair manner. It includes glossary, sample forms and checklists, and bibliography.

Animal Assisted Therapy in Counseling Sep 10 2021 Animal Assisted Therapy in Counseling is the most comprehensive book available dedicated to training mental health practitioners in Animal Assisted Therapy (AAT). It explains the history and practice of AAT in counseling, discusses the latest empirical research, and provides an in-depth explanation of the psychodynamics of AAT within various theoretical frameworks. Readers will learn the proper way to select, train, and evaluate an animal for therapy. The use of a number of different therapy animals is considered, including dogs, cats, horses, birds, farm animals, rabbits and other small animals, and dolphins. Guidelines for implementing AAT in settings such as private practices, community agencies, schools, hospices, and prisons are covered, as well as ethical and legal considerations, risk management, diversity issues, and crisis and disaster response applications. Numerous case examples illustrate the use of AAT principles with clients, and forms, client handouts, and other resources provide valuable tools. This unique resource is an indispensable guide for any counselor looking to develop and implement AAT techniques in his or her practice.

Directors' Liability: A Worldwide Review Aug 29 2020 This acclaimed reference book for international business lawyers first appeared in 2006, with a second edition in 2010. Now in its third edition, and once again published in conjunction with the International Bar Association, this comparative study of a crucial issue in corporate law gives practitioners a powerful and decisive tool for ascertaining and comparing the law affecting directors' liability in today's globalizing economies. Covering nearly fifty jurisdictions worldwide (including eight not previously covered), the third edition affords senior lawyers in major firms the opportunity to provide concise, detailed, and easy-to-understand summaries on his or her home law on directors' liability. Authors whose research appeared in earlier editions have updated their chapters, and the case law summarized and analysed now reflects published cases through the end of March 2016. The contributions describe the relevant law in force in each particular jurisdiction, along with an insightful discussion of trends and future prospects. For each of the different jurisdictions the authors detail and explain such factors as the following: - national legal theories of director liabilities; - recent cases dealing with directors' liability; - corporate governance; and - indemnification and insurance. Where applicable, coverage also includes the legal implications of jurisdictional variations in such matters as judicial review, lawyer directorship, directors' reliance on outside professionals, and the effect of the European Action Plan. References have been thoroughly updated throughout, and include many new online sources. This publication will be of enormous value to legal practitioners, whether in private practice or in the legal department of a globally active company, as a comprehensive and easy means of access to the law of foreign jurisdictions on directors' liability.
