**Strategies of Authoritarian Survival and Dissensus in Southeast Asia Jun 20 2022** This book analyses how authoritarian rulers of Southeast Asian countries maintain their durability in office, and, in this context, explains why some movements of civil society organizations succeed while others fail to achieve their demands. It discusses the relationship between the state-society-business in the political survival context. As the first comparative analysis of strategies of regime survival across Southeast Asia, this book also provides an in-depth insight into the various opposition movements, and the behaviour of antagonistic civic and political actors in the region.

**International Financial Statistics, November 2013 Mar 30 2023** The IMF's principal statistical publication, International Financial Statistics (IFS) Online, is the standard source of international statistics on all aspects of international and domestic finance. ***The Legal Recognition of Same-Sex Relationships* Jan 22 2020** This book analyses the key issues affecting same-sex families in Ireland and beyond today: marriage; formalised and non-formalised same-sex relationships outside of marriage; parental rights for same-sex couples with donor-conceived or surrogate-born children; and the protections afforded to same-sex families under European human rights law. It critically examines the Irish and Australian citizen-led approaches to achieving marriage equality, which made Ireland and Australia the first and second countries in the world, respectively, to extend the institution of marriage to same-sex couples on foot of a popular vote. It analyses the pragmatic and symbolic effects of civil partnership, which was the premier means of

**formalising same-sex unions in Ireland. Ireland's hurried 'divorce' from civil partnership in the aftermath of marriage equality is examined in light of evidence from the U.K. indicating that this mode of relationship recognition remains popular with both same-sex and opposite-sex couples in that jurisdiction. The book goes on to consider the legal position of same-sex couples who are parenting children born via assisted reproductive techniques (ARTs) like donor-assisted human reproduction (DAHR) and surrogacy. Finally, it looks at the impact (or lack thereof) of the European Convention on Human Rights (ECHR) as regards the protection of same-sex relationships, marriage and parental rights for same-sex couples. It does this to determine what is required of Ireland and other states party to the ECHR to comply with European human rights obligations when it comes to legally recognising couples, and parents, of the same sex.**

**Arbitration in Argentina Mar 18 2022 This publication is the most comprehensive international book on arbitration in Argentina. It provides a complete description and analysis of the historical and contemporary structure of arbitration law and practice in the country, which is based on the UNCITRAL Model Law. Its chapters are authored by many of the most regarded Argentine authorities, many of whom are responsible for drafting Argentina's current arbitration regulation. Throughout its thirty-one chapters, the book covers an ample number of topics in commercial and investment arbitration, and an exhaustive analysis of arbitration in different specific fields (energy, sports, consumers, among others). Some of the topics addressed in this book include the following: regulatory framework of arbitration in Argentina; arbitration agreements; arbitral proceedings and the applicable law; issues of arbitrability; interim measures; costs and financing of arbitrations; validity, recognition and enforcement of awards; arbitration and the MERCOSUR. This publication also includes some particular studies, for example those related to the tensions between investment arbitration and human rights, as well as the relationship between the country and the ICC, and the PCA. Although mainly focused in Argentina, the discussions contained in several contributions exceed**

such geographical boundaries. Given that the law and practice of arbitration in Argentina has seen remarkable changes in recent decades, this book is an essential tool for arbitrators, judges, in-house counsels, global law firms, large- and medium-sized companies doing transnational business, interested academics, and international arbitration centres. Because this publication draws from the teachings and experience of leading academics and practitioners, arbitration specialists will find in it all the guidance needed to identify and assess the different theoretical and practical legal avenues available when working on arbitrations with a seat in Argentina or with an Argentine element.

*Participatory archives in a world of ubiquitous media* Apr 18 2022 The media environment of today is characterised by two critical factors: the development and adoption of ubiquitous mobile devices, and the strengthening of connectivity enabled by advances in ICT infrastructure and social media platforms. These developments have changed interactions and relationships between citizens and cultural custodians, as well as the ways archives are developed, kept, and used. Archives are now characterised by greater socialisations and networks that actively contribute to the signification of cultural heritage value. A range of new stakeholders, many of whom include the public, have sought to define what needs to be collectively remembered and forgotten. The world in which one or a few professional archivists worked on the sole mission of shaping how a society remembers is being displaced by a more democratised culture and the new generation of digitally networked archivists that are its natives. Using a range of case studies and perspectives, this book provides insights to the many ways that ubiquitous media have influenced archival practices and research, as well as the social and civic consequences of present-day archives. This book was published as a special issue of *Archives and Manuscripts*.

**Graphic Justice Jun 08 2021 The intersections of law and contemporary culture are vital for comprehending the meaning and significance of law in today's world. Far from being unsophisticated mass entertainment, comics and graphic fiction both imbue our contemporary culture, and are themselves imbued, with the concerns of law and justice. Accordingly, and spanning a wide variety of approaches and topics from an international array of contributors, Graphic Justice draws comics and graphic fiction into the range of critical resources available to the academic study of law. The first book to do this, Graphic Justice broadens our understanding of law and justice as part of our human world—a world that is inhabited not simply by legal concepts and institutions alone, but also by narratives, stories, fantasies, images, and other cultural articulations of human meaning. Engaging with key legal issues (including copyright, education, legal ethics, biomedical regulation, and legal personhood) and exploring critical issues in criminal justice and perspectives on international rights, law and justice—all through engagement with comics and graphic fiction—the collection showcases the vast breadth of potential that the medium holds. Graphic Justice will be of interest to academics and postgraduate students in: cultural legal studies; law and the image; law, narrative and literature; law and popular culture; cultural criminology; as well as cultural and comics studies more generally.**

**Regime Change in Contemporary Turkey Dec 03 2020 Turkey has undergone a series of upheavals in its political regime from the mid-19th century. This book details the most recent change, locating it in its broader historical setting. Beginning with the Justice and Development Party's rule from late 2002, supported by a broad informal coalition that included liberals, the book shows how the former Islamists gradually acquired full power between 2007 and 2011. It then describes the subsequent phase, looking at politics and rights under the amorphous**

**Recentralisation in Colombia Dec 27 2022 This book tackles the question of how to characterise and account for recentralisation in Colombia between central and lower levels of government across a 26-year period. Around the world, the COVID-19 pandemic has once again put the distribution of responsibilities, resources, and authority between different levels of government at the heart of political debate. This book brings this issue to light as a topic central to the study of public administration. Drawing on extensive fieldwork with more than a hundred interviews with former presidents, ministers, members of congress, governors, local mayors and subnational public officials, as well as documentary sources, it begins with a historical account of recentralisation processes in the world. It then proposes a theoretical framework to explain these processes, before tracing and carefully comparing recentralisation episodes in Colombia using theory-guided process tracing.**

**The Bleeding Continent Dec 23 2019 This book tells the story of the sorry state of Africa. Although it acknowledges how Europe especially initiated and has surreptitiously maintained the ongoing predation on and the impoverishment of Africa, its major attention is on Africa's self-betrayal, how Africa's political leaders and elites have contributed in the present predicament of Africa. Beginning from the dishonourably sadistic roles some of the kings, chiefs, and elites of Africa played during the slave trade era to the predatory systems of governance many of their political leaders adopted after decolonisation and have maintained to date, this book x-rays the internal factors that are also responsible for the poverty of Africa. The author argues passionately, consequently, that only Africa can help Africa, not foreign aid or any external intervention. He stresses that unless the cannibalistic system of governance in many African states are reformed and systems that can stimulate and sustain economic growth adopted, the disappearance of Africa is imminent.**

***Democratic Sustainability in a New Era of Localism* May 20 2022 Change**

and development are going on all around us. On both an international platform, as well as at the local governmental and community level, governments, decision and policy makers constantly strive to improve the world in which we live, seeking to make it better and to improve quality of life. This book focuses on such development in the context of localism in the UK. It strips the principle of local sustainability down to its constituent parts and considers the extent to which it can be said to be central to local life. As part of this, it presents the case for the importance of accountability and citizen participation in achieving objectives aligned with sustainability, and illustrates the relationships that these principles share. On this foundation, it evaluates local government in the UK, as well as examples of community-led regeneration initiatives and bodies, and seeks to determine both the nature of their pursuit of sustainability and the extent to which accountability and citizen participation play a part in that pursuit. It shows that local sustainability is enhanced by accountability and citizen participation; those principles ensuring that local people can be central to the process. Whilst its evaluations of local democratic systems in the UK reveal certain issues as regards the extent to which this is reflected in practice, it at least demonstrates an enthusiasm and awareness of the important role that accountability and citizen participation can play in the process of local sustainability. The book is aimed at legal academics, with relevance also to students in law, environmental politics and sustainable development, as well as those working in government policy and political practice.

**The Foreign Policy of Hamas Oct 13 2021** Despite the boycott Hamas was subjected to since its victory in the 2006 parliamentary elections, it has become a significant player on the international stage. It boasts a territory identifiable by its borders, internationally recognized cease-fire lines and effective authority over a population. This book, a study in international relations, shows how Hamas willingly mobilizes Palestinian internal issues to establish its legitimacy on a global scale, and at the same time, uses its relations with non-Palestinian players to compete against its political rivals on the Palestinian national stage. Leila Seurat reveals that Hamas's foreign and internal policy are strongly intertwined

and centred mainly on Hamas's quest for recognition. The book then is a comprehensive diplomatic history of Palestine, focused on the political orientations of Hamas towards both Israel and other countries. Its coverage spans the movement's victory in 2006 up until more recent momentous events, including, Hamas' response to Trump's 'deal of the century' and Israel's announcement of the annexation of the Jordan Valley, as well as the proclamation of normalization accords between Israel and the United Arab Emirates and the impact of Covid19. The book is based on Leila Seurat's extensive fieldwork and interviews with Hamas's leading officials across the West Bank, Gaza, Damascus, Geneva and Beirut in addition to recent video-conferences planned by various NGOs and attended by West Bank, Gaza and Diaspora Palestinians.

*A Transnational Study of Law and Justice on TV* Dec 15 2021 This collection examines law and justice on television in different countries around the world. It provides a benchmark for further study of the nature and extent of television coverage of justice in fictional, reality and documentary forms. It does this by drawing on empirical work from a range of scholars in different jurisdictions. Each chapter looks at the raw data of how much "justice" material viewers were able to access in the multi-channel world of 2014 looking at three phases: apprehension (police), adjudication (lawyers), and disposition (prison/punishment). All of the authors indicate how television developed in their countries. Some have extensive public service channels mixed with private media channels. Financing ranges from advertising to programme sponsorship to licensing arrangements. A few countries have mixtures of these. Each author also examines how "TV justice" has developed in their own particular jurisdiction. Readers will find interesting variations and thought-provoking similarities. There are a lot of television shows focussed on legal themes that are imported around the world. The authors analyse these as well. This book is a must-read for anyone interested in law, popular culture, TV, or justice and provides an important addition to the literature due to its grounding in empirical data.

**Sooner Or Later, They'll Turn on You! - Selected Songs & Poems - 2013-2014 Oct 25 2022** The next stop along a poetic journey, which began with **""Shattered Images,""** and continued with **""The Problem With Revolution""**; the overarching theme of **""Sooner or Later, They'll Turn on You!""** is one of betrayal. We betray our family, we betray our so-called 'friends', we betray those, who care about us, we betray our community, our society, and our nation, but most of all, we betray our own ethics and beliefs. Worst of all, is that betrayal doesn't always go to the highest bidder. Sometimes the greatest betrayals are bought and sold for worthless trinkets, and empty promises...

**Performative Holocaust Commemoration in the 21st Century Aug 11 2021** This book charts the performative dimension of the Holocaust memorialization culture through a selection of representative artistic, educational, and memorial projects. Performative practice refers to the participatory and performance-like aspects of the Holocaust memorial culture, the transformative potential of such practice, and its impact upon visitors. At its core, performative practice seeks to transform individuals from passive spectators into socially and morally responsible agents. This edited volume explores how performative practices came into being, what impact they exert upon audiences, and how researchers can conceptualise and understand their relevance. In doing so, the contributors to this volume innovatively draw upon existing philosophical considerations of performativity, understandings of performance in relation to performativity, and upon critical insights emerging from visual and participatory arts. The chapters in this book were originally published as a special issue of **Holocaust Studies: A Journal of Culture and History**.

**Climate Change and Genocide Jan 16 2022** Climate change caused by human activity is the most fundamental challenge facing mankind in the 21st century, since it will drastically alter the living conditions of millions of people, mainly in the Global South. Environmental violence, including resource crises such as peak fossil fuel, will lie at the heart of future conflicts. However, **Genocide Studies** have so far neglected this subject, due to the emphasis that traditional genocide scholarship places on

ideology and legal prosecution, leading to a narrow understanding of the driving forces of genocide. This book aims at changing this, initiating a dialogue between scholars working in the areas of climate change and genocide. Research into genocide as well as climate change is a highly interdisciplinary endeavour, transcending the boundaries of established disciplines. Contributions to this book address this by approaching the subject from a wide array of methodological, theoretical, disciplinary and regional perspectives. As all the contributions show, climate change is a major threat multiplier for violence or non-violent destruction and any understanding of prevention needs to take this into account. They offer a basis for much needed Critical Prevention Studies, which aims at sustainable prevention. This book was originally published as a special issue of the International Journal of Human Rights.

**American State-Building in Afghanistan and Its Regional Consequences**

**May 08 2021** The book calls for rethinking U.S. policy toward promoting Afghanistan as a regional economic hub in Southwest and Central Asia as it fits within the broader national security interest of the regional states. It argues for defining Afghanistan within the U.S. national security interests in Southwest and Central Asia, including Iran, and offers critical strategic tools for Washington to support political openness and reforms that can balance China and Russia, as well as more effectively manage Iran's regional behavior. It links the U.S. policy approach in Southwest and Central Asia as the "missing leg" of Washington's East Asia policy. The book defines the strategic interests of each of Afghanistan's neighboring states and key regional actors to explain why a rethinking of the U.S. role in Afghanistan can assist the emergence of a new regional order in Southwest and Central Asia, which in turn can embolden a free market economy and a growing political openness superior to authoritarianism and Islamist militancy.

**Making British Defence Policy May 27 2020 This book explores the process by which defence policy is made in contemporary Britain and the institutions, actors and conflicting interests which interact in its inception and continuous reformulation. Rather than dealing with the substance of defence policy, this study focuses upon the institutional actors involved in this process. This is a subject which has commanded far more interest from public, Parliament, government and the armed forces since the protracted, bloody and ultimately unsuccessful British military involvement in Iraq and Afghanistan. The work begins with a discussion of two contextual factors shaping policy. The first relates to the impact of Britain's 'special relationship' with the United States over defence and intelligence matters, while the second considers the impact of Britain's relatively disappointing economic performance upon the**

**funding of British defence since 1945. It then goes on to explore the role and impact of all the key policy actors, from the Prime Minister, Cabinet and core executive, to the Ministry of Defence and its relations with the broader 'Whitehall village', and the Foreign Office and Treasury in particular. The work concludes by examining the increasing influence of external policy actors and forces, such as Parliament, the courts, political parties, pressure groups and public opinion. This book will be of much interest to students of British defence policy, security studies, and contemporary military history.**

**Ancient Magic and the Supernatural in the Modern Visual and Performing Arts Nov 01 2020 To what extent did mythological figures such as Circe and Medea influence the representation of the powerful 'oriental' enchantress in modern Western art? What role did the ancient gods and heroes play in the construction of the imaginary worlds of the modern fantasy genre? What is the role of undead creatures like zombies and vampires in mythological films? Looking across the millennia, from the distrust of ancient magic and oriental cults, which threatened the newborn Christian religion, to the revival and adaptation of ancient myths and religion in the arts centuries later, this book offers an original analysis of the reception of ancient magic and the supernatural, across a wide variety of different media – from comics to film, from painting to opera. Working in a variety of fields across the globe, the authors of these essays deconstruct certain scholarly traditions by proposing original interdisciplinary approaches and collaborations, showing to what extent the visual and performing arts of different periods interlink and shape cultural and social identities.**

***Disease Recurrence After Liver Transplantation* Feb 14 2022 As there is a high incidence of disease recurrence after liver transplantation, this volume is designed around the need for a reference text dealing exclusively with this problem. The book places special emphasis on pre- and post-transplant predictors of recurrence, severity assessment, prophylaxis, and treatment. Pathobiology of disease recurrence is discussed in detail where applicable. Issues including quality of life and**

cost burden are also covered in the text. Written by well-known authorities in each field, **Disease Recurrence After Liver Transplantation: Natural History, Treatment and Survival** serves as a comprehensive reference for physicians and surgeons who take care of liver transplant recipients and a major addition to the literature detailing the current understanding of disease recurrence.

**Zimbabwe's International Relations Aug 23 2022** Zimbabwe is a state that has undergone significant ruptures in its domestic and international politics in recent years. This book explores how Zimbabwean citizens have, under difficult circumstances, reconstructed ideas of their state by imagining the wider world. Unlike other work on international relations, which tends to focus on the state level, this book is based on the accounts of ordinary people. Drawing on interviews with more than two hundred Zimbabweans, collected over three years, Gallagher explores how citizens draw on emotional responses to the international to find and construct different 'others'. While this unique and compelling read will appeal to those researching Zimbabwe, Gallagher's wider conclusions will interest those studying and advancing the broader theoretical debates of international relations.

**Google Earth: Outreach and Activism Oct 01 2020** In order to be able to communicate and engage with each other via new communicative spaces such as Google Earth, we need to understand as much as possible about how they work as cultural texts: how and why we make them and how we respond to them. Launched in 2005, Google Earth is a virtual globe, map and geographical information program, mapping the Earth by the superimposition of images obtained from satellite imagery and aerial photography. By addressing the sociopolitical issues at stake in society's use of social websites, the author provides the first ever extended close reading of Google Earth as a powerful player in the communication realm of social media. By grounding the context of its military pre-history, its construction, its links to other similar world-making sites such as Google Maps and how it is perceived critically by social scientists, it is imperative to understand how social networking and information sites work in socio and geo-political contexts if society is to use these sites

effectively and for the public good.

***The Battle over a Civil State* Mar 25 2020** Traces the genealogy of the Western philosophic concept of the civil state, how that concept was assimilated into Egyptian political thought, and how it affected the 2013 coup against President Mursi. How is the concept of the civil state understood in Arab countries? In *The Battle over a Civil State*, Limor Lavie examines how this important concept, which originated in Western philosophy, became incorporated into Arab discourse. The civil state as understood in Arab political discourse, Lavie argues, attempts to bridge Islamic history and culture with modernity. It is an attempt to forge a middle ground between a purely theocratic rule and a purely secular rule, and a solution for the tensions between a desire to catch up with global modernization and democratization processes and the desire to reject those same processes. In the political discourse of most of the Arab Spring countries, the concept of the civil state played a pivotal role. In the public debate over the character of Egypt, in particular, following the January 25, 2011 uprising, the demand to establish a civil state was shared by all the political currents. However, when these currents sought to set out basic guidelines for Egypt's future, it soon became clear that they were far from reaching a consensus, and that the concept of the civil state was at the heart of the controversy between them. The struggle over Egypt's civil character in the post-Mubarak era was the main reason for the turbulence the country experienced on June 30, 2013—leading to the ouster of President Muhammad Mursi. Limor Lavie teaches at Bar Ilan University.

***Music in Disney's Animated Features* Jul 30 2020** In *Music in Disney's Animated Features* James Bohn investigates how music functions in Disney animated films and identifies several vanguard techniques used in them. In addition he also presents a history of music in Disney animated

films, as well as biographical information on several of the Walt Disney Studios' seminal composers. The popularity and critical acclaim of Disney animated features truly is built as much on music as it is on animation. Beginning with Steamboat Willie and continuing through all of the animated features created under Disney's personal supervision, music was the organizing element of Disney's animation. Songs establish character, aid in narrative, and fashion the backbone of the Studios' movies from Snow White and the Seven Dwarfs through The Jungle Book and beyond. Bohn underscores these points while presenting a detailed history of music in Disney's animated films. The book includes research done at the Walt Disney Archives as well as materials gathered from numerous other facilities. In his research of the Studios' notable composers, Bohn includes perspectives from family members, thus lending a personal dimension to his presentation of the magical Studios' musical history. The volume's numerous musical examples demonstrate techniques used throughout the Studios' animated classics.

Routledge Handbook of Human Rights and Climate Governance Nov 25 2022 Over the last decade, the world has increasingly grappled with the complex linkages emerging between efforts to combat climate change and

to protect human rights around the world. The Paris Climate Agreement adopted in December 2015 recognized the necessity for governments to take into consideration their human rights obligations when taking climate action. However, important gaps remain in understanding how human rights can be used in practice to develop and implement effective and equitable solutions to climate change at multiple levels of governance. This book brings together leading scholars and practitioners to offer a timely and comprehensive analysis of the opportunities and challenges for integrating human rights in diverse areas and forms of global climate governance. The first half of the book explores how human rights principles and obligations can be used to reconceive climate governance and shape responses to particular aspects of climate change. The second half of the book identifies lessons in the integration of human rights in climate advocacy and governance and sets out future directions in this burgeoning domain. Featuring a diverse range of contributors and case studies, this Handbook will be an essential resource for students, scholars, practitioners and policy makers with an interest in climate law and governance, human rights and international environmental law.

**Contemporary Issues in Global Criminal Justice Sep 23 2022**

Contemporary Issues in Global Criminal Justice provides a holistic analysis of modern criminal justice issues, encompassing the pre-trial, investigative, and post-conviction stages of criminal justice in legal settings across the world. The contributors acknowledge and examine the vast array of challenges in global criminal justice, from the role of the International Criminal Court to policing, the integration of technology, and how marginalized groups, such as sex workers and those with addictions, are treated in the courts. With contributions from scholars in England and Wales, New Zealand, Croatia, Spain, the Netherlands, Canada, and The Republic of North Macedonia, this book is not limited to one jurisdiction, and highlights that criminal justice is very much a global issue in a state of crisis. From policing to the courts, it is in urgent need of reform. Without a competent criminal justice system, justice does not exist. This book would be of interest to scholars in the legal, criminal justice, and criminology fields.

**Potiphar's Wife Jul 10 2021 English summary: The cover-up of child sexual abuse by the Catholic Church has been occurring under the pontificate of six popes since 1922. For 1500 years, the Catholic Church accepted that clergy who sexually abused children deserved to be stripped of their status as priests and then imprisoned. A series of papal and Council decrees from the twelfth century required such priests to be dismissed from the priesthood, and then handed over to the civil authorities for further punishment. That all changed in 1922 when Pope Pius XI issued his decree Crimen Sollicitationis that created a de facto privilege of clergy by imposing the secret of the Holy Office on all information obtained through the Church's canonical investigations. If the State did not know about these crimes, then there would be no State trials, and the matter could be treated as a purely canonical crime to be dealt with in secret in the Church courts. Pope Pius XII continued the decree. Pope John XXIII reissued it in 1962. Pope Paul VI in 1974 extended the reach of pontifical secrecy to the allegation itself. Pope John Paul II confirmed the application of pontifical secrecy in 2001, and in 2010, Benedict XVI even extended it to allegations about priests sexually abusing intellectually disabled adults. In 2010, Pope Benedict gave a dispensation to pontifical secrecy to allow reporting to the police where the local civil law required it, that is, just enough to keep bishops out of jail. Most countries in the world do not have any such reporting laws for the vast majority of complaints about the sexual abuse of children. Pontifical secrecy, the cornerstone of the cover up continues. The effect on the lives of children by the imposition of the Church's Top Secret classification on clergy sex abuse allegations may not have been so bad if canon law had a decent disciplinary system to dismiss these priests. The 1983 Code of Canon Law imposed a five year limitation period which virtually ensured there would be no canonical trials. It required bishops to try to reform these priests before putting them on trial. When they were on trial, the priest could plead the Vatican Catch 22 defence he should not be dismissed because he couldn't control himself. The Church claims that all of this has changed. Very little has changed. It has fiddled around the edges of pontifical secrecy and the disciplinary canons. The**

**India's National Security Jan 28 2023** This fourteenth volume of India's National Security Annual Review intensively analyses India's national security with respect to the changing internal and external dynamics. In the global environment, the situation is characterised by rising tensions between United States and Russia, intensified rivalry between United States (US) and China, and increasing cooperation between China and Russia. For India which seeks peaceful growth to emerge as a major power, this poses severe diplomatic challenges. This volume discusses the complexity of these challenges and the deftness with which India gets the best out of its strategic partnerships with the US and Russia while warding off the transgressions of a mighty adversary like China. It also studies the impact of internal convulsions and external intrusions on India's security from South Asian nations such as Afghanistan, Bangladesh, Nepal and Sri Lanka. Examining the field of internal security, the essays carry rare insights into the causes of expansion of Naxalite violence in tribal areas and the dynamics of conflict resolution in the Northeast, as well as India's deep concern as a growing power with its economic slowdown in the recent past, and energy and cyber security. Bringing together contributions from eminent scholars and diplomats, the volume will be indispensable for policymakers, government think tanks, defence and strategic studies experts, as well as students and researchers of international relations, foreign policy and political science.

**Zero Hours Contracts in Scotland: Interim Report - HC 654 Sep 11 2021**  
Zero hours contracts and other forms of casual labour can benefit workers and employers in Scotland but the Scottish Affairs Committee's inquiry has shown that, too often, the relationship is unbalanced, leaving the employer with all of the flexibility and few costs and the worker in fear of dismissal, denied access to due rights of employment and, in some cases, earning less than the minimum wage. The Government recognises that poor practice exists and needs to be addressed but the UK Government's consultation on zero hours contracts was too narrow. The Government must do more to protect workers who wish to challenge unfair, unsafe or unlawful conditions of employment. Workers should be told from the outset of their employment what type of contract they are on and a written contract setting out the terms and conditions must follow within two months. There should be a minimum notice period of

**work and workers should not be punished for turning down offers of work made within that period. Where workers arrive for work but find none available then the employer should compensate them for the inconvenience. Travel time between appointments should be paid and pay for zero hours workers should accurately reflect the number of hours that are worked to fulfil contracted duties. The recommendations will improve the working conditions of people on zero hours contracts but the Committee's overriding conclusion is that, in the majority of cases, zero hours contracts need not and should not be used at all.**

**The Age of ESMA Jan 04 2021** Since its establishment in 2011, the European Securities and Markets Authority (ESMA) has become a pivotal actor in EU financial market regulation and supervision. Its burgeoning influence extends from the rule-making process to supervisory convergence/coordination to direct supervision. Reflecting the now critical importance of ESMA to how the EU regulates and supervises financial markets, and with ESMA at an inflection point in its evolution, particularly in light of the Commission's 2017 proposals to reform ESMA and the UK's withdrawal from the EU, **The Age of ESMA** maps, contextualises, and examines ESMA's role and the implications for EU financial market governance.

**History of South Africa Nov 13 2021** South Africa was born in war, has been cursed by crises and ruptures, and today stands on a precipice once again. This book explores the country's tumultuous journey from the Second Anglo-Boer War to 2021. Drawing on diaries, letters, oral testimony and diplomatic reports, Thula Simpson follows the South African people through the battles, elections, repression, resistance, strikes, insurrections, massacres, crashes and epidemics that have shaped the nation. Tracking South Africa's path from colony to Union and from apartheid to democracy, Simpson documents the influence of key figures including Jan Smuts, Nelson Mandela, Steve Biko, P.W. Botha, Thabo Mbeki and Cyril Ramaphosa. He offers detailed accounts of watershed events like the 1922 Rand Revolt, the Defiance Campaign, Sharpeville, the Soweto uprising and the Marikana massacre. He sheds light on the roles of Gandhi, Churchill, Castro and Thatcher, and explores the impact

**of the World Wars, the armed struggle and the Border War. Simpson's history charts the post-apartheid transition and the phases of ANC rule, from Rainbow Nation to transformation; state capture to 'New Dawn'. Along the way, it reveals the divisions and solidarities of sport; the nation's economic travails; and painful pandemics, from the Spanish flu to AIDS and Covid-19.**
