Designing Technology Training for Older Adults in Continuing Care Retirement Communities Apr 30 2023 This book provides the latest research and design-based recommendations for how to design and implement a technology training program for older adults in Continuing Care Retirement Communities (CCRCs). The approach in the book concentrates on providing useful best practices for CCRC owners, CEOs, activity directors, as well as practitioners and system designers working with older adults to enhance their quality of life. Educators studying older adults will also find this book useful. Although the guidelines are couched in the context of CCRCs, the book will have broader-based implications for training older adults on how to use computers, tablets, and other technologies.

Measuring the User Experience Dec 27 2022 *Measuring the User Experience* was the first book that focused on how to quantify the user experience. Now in the second edition, the authors include new material on how recent technologies have made it easier and more effective to collect a broader range of data about the user experience. As more UX and web professionals need to justify their design decisions with solid, reliable data, *Measuring the User Experience* provides the quantitative analysis training that these professionals need. The second edition presents new metrics such as emotional engagement, personas, keystroke analysis, and net promoter score. It also examines how new technologies coming from neuro-marketing and online market research can refine user experience measurement, helping usability and user experience practitioners make business cases to stakeholders. The book also contains new research and updated examples, including tips on writing online survey questions, six new case studies, and examples using the most recent version of Excel. Learn which metrics to select for every case, including behavioral, physiological, emotional, aesthetic, gestural, verbal, and physical, as well as more specialized metrics such as eye-tracking and clickstream data. Find a vendor-neutral examination of how to measure the user experience with web sites, digital products, and virtually any other type of product or system. Discover in-depth global case studies showing how organizations have successfully used metrics and the information they revealed. Companion site, www.measuringux.com, includes articles, tools, spreadsheets, presentations, and other resources to help you effectively measure the user experience.

Power Negotiating for Salespeople Oct 25 2022 Master negotiator Roger Dawson turns his attention to the person on the other side of the desk--the salesperson who's trying to close a deal with the most favorable terms. The goal of most negotiations is to create a win-win situation. Imagine if you could win every negotiation and leave the other person feeling like he or she has won too? This book teaches you how to be the power sales negotiator who can do exactly that. You will always come away from the negotiating table knowing that you have won and that you have improved your relationship with your buyer. Roger Dawson gives salespeople an arsenal of tools that can be implemented easily and immediately. In addition, he shows salespeople how to: Master the nine elements of power that control negotiating situations. Ask for more than you expect to get. Negotiate with individuals from other cultures. Analyze personality styles and adapt to them. Master the 24 power closes. *Power Negotiating for Salespeople* is not a dull, dry treatise full theory. Nor is it a handbook of tricks and scams meant to manipulate others. It is the most complete book ever written specifically for salespeople about the process of negotiation and will enable any salesperson to take a quantum leap in sales. Praise for Dawson's Books: "I can't believe it! Here's a book that is packed with wisdom that will help anyone improve their life and yet it is easy and fun to read! Amazing!" --Og Mandino, author of *The Greatest Salesman in the World* "A fast, entertaining read that should be required reading for anyone who deals with people. Highly recommended." --Ken Blanchard, coauthor of *The One Minute Manager* "Roger Dawson's great book will help you create and expand one of the most critical skills to life-long success." --Anthony Robbins, author of *Unlimited Power* and *Awaken the Giant Within*

Poster Girl Feb 23 2020 Beccy Cole's inspirational memoir from the heart of Australian country music. Beccy Cole has country music in her blood. Daughter of a country music star, Carole Sturtzel, she is one of the most popular country singer-songwriters in Australia today. This is the story of her life - in her own words. At fourteen, Beccy was performing in her mother's group, Wild Oats. By her late teens, Beccy had teamed up with the Dead Ringer Band - Kasey Chambers' family band - and had attracted the attention of the country music world by winning the Star Maker quest: the same award that started the careers of Keith Urban, Lee Kernaghan, James Blundell and Gina Jeffreys. It was just the first of many awards and accolades for this multitalented woman with a big heart. With refreshing candour, Beccy shares her story: leaving everything she knew to pursue her dream, making a name for herself with her own band; her marriage and motherhood; her subsequent divorce, becoming a single mother and maintaining the nurturing love of family. Performing for the Australian troops in Afghanistan. Coming out, and what it has meant for her and her fans. Taking control of her own life - and finding love. Heartfelt and honest, *Poster Girl* is the inspirational memoir of a strong woman who epitomises the authentic spirit of country music, and of Australia.

Radar Instruction Manual Mar 30 2023 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

The Book of L Jan 04 2021 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Even Faster Web Sites Sep 11 2021 Performance is critical to the success of any web site, and yet today's web applications push browsers to their limits with increasing amounts of rich content and heavy use of Ajax. In this book, Steve Souders, web performance evangelist at Google and former Chief Performance Yahoo!, provides valuable techniques to help you optimize your site's performance. Souders' previous book, the bestselling *High Performance Web Sites*, shocked the web development world by revealing that 80% of the time it takes for a web page to load is on the client side. In *Even Faster Web Sites*, Souders and eight expert contributors provide best practices and pragmatic advice for improving your site's performance in three critical categories: JavaScript—Get advice for understanding Ajax performance, writing efficient JavaScript, creating responsive applications, loading scripts without blocking other components, and more. Network—Learn to share resources across multiple

domains, reduce image size without loss of quality, and use chunked encoding to render pages faster. Browser—Discover alternatives to iframes, how to simplify CSS selectors, and other techniques. Speed is essential for today's rich media web sites and Web 2.0 applications. With this book, you'll learn how to shave precious seconds off your sites' load times and make them respond even faster. This book contains six guest chapters contributed by Dion Almaer, Doug Crockford, Ben Galbraith, Tony Gentilcore, Dylan Schiemann, Stoyan Stefanov, Nicole Sullivan, and Nicholas C. Zakas.

Maturing Usability Jan 28 2023 This book provides an understanding of how current research and practice has contributed towards improving quality issues in software, interaction and value. The book includes chapters on new methods/approaches that will enhance the field of usability. A balance between theoretical and empirical approaches is maintained throughout, and all those interested in exploring usability issues in human-computer interaction will find this a very useful book.

Inclusive Design Jul 22 2022 Inclusive Design: What's in It for Me? presents a comprehensive review of current practice in inclusive design. With emphasis on new ideas for improvement and arguments for wider implementation in future, a unique combination of leading opinions on inclusive design from both industry and academia are offered. The theme throughout encourages a positive view of inclusive design as a good and profitable process and to produce a change to more effective approaches to "design for all". Inclusive Design is composed of two parts with a common chapter structure so that the business and design arguments in favour of inclusive design can be easily compared and assimilated: The Business Case presents the industrial and management benefits of inclusive design. It concentrates on demographic, legal and ethical reasons for all businesses being better off taking inclusivity into account in the design of their products or services. Case histories demonstrating the commercial success of inclusive design are drawn from the experiences of companies such as Tesco, Fiat and The Royal Mail. The Designers' Case focuses on the factors a designer needs to take into account when dealing with inclusivity. "Who is going to use my design?" "What do they need from my design?" "How do I take any medical needs into account?" "Just how "inclusive" is my design?" are all questions answered in this section which presents the necessary tools for effective inclusive design. This part of the book aims to convince a designer that inclusive design is a realistic goal. Inclusive Design will appeal to designers, researchers and students and to managers making decisions about the research and design strategies of their companies.

Mural May 20 2022 Poetry from former national poet of Palestine, illustrated by original drawings by John Berger Mahmoud Darwish was the Palestinian national poet. One of the greatest poets of the last half century, his work evokes the loss of his homeland and is suffused with the pain of dispossession and exile. His poems display a brilliant acuity, a passion for and openness to the world and, above all, a deep and abiding humanity. Here, his close friends John Berger and Rema Hammami present a beautiful new translation of two of Darwish's later works. Illustrated with original drawings by John Berger, *Mural* is a testimony to one of the most important and powerful poets of our age.

Designing Inclusive Systems Jun 20 2022 The Cambridge Workshops on Universal Access and Assistive Technology (CWUAAT) are a series of workshops held at a Cambridge University College every two years. The workshop theme: "Designing inclusion for real-world applications" refers to the emerging potential and relevance of the latest generations of inclusive design thinking, tools, techniques, and data, to mainstream project applications such as healthcare and the design of working environments. Inclusive Design Research involves developing tools and guidance enabling product designers to design for the widest possible population, for a given range of capabilities. There are five main themes: Designing for the Real-World Measuring Demand And Capabilities Designing Cognitive Interaction with Emerging Technologies Design for Inclusion Designing Inclusive Architecture In the tradition of CWUAAT, we have solicited and accepted contributions over a wide range of topics, both within individual themes and also across the workshop's scope. We ultimately hope to generate more inter-disciplinary dialogues based on focused usage cases that can provide the discipline necessary to drive further novel research, leading to better designs. The aim is to impact industry and end-users as well governance and public design, thereby effectively reducing exclusion and difficulty in peoples' daily lives and society.

The Multitasking Mind Sep 23 2022 This book presents the theory of threaded cognition, a theory that aims to explain the multitasking mind. The theory states that multitasking behavior can be expressed as cognitive threads-independent streams of thought that weave through the mind's processing resources to produce multitasking behavior, and sometimes experience conflicts to produce multitasking interference. Grounded in the ACT-R cognitive architecture, threaded cognition incorporates computational representations and mechanisms used to simulate and predict multitasking behavior and performance.

High Performance Web Sites Jul 10 2021 Want your web site to display more quickly? This book presents 14 specific rules that will cut 25% to 50% off response time when users request a page. Author Steve Souders, in his job as Chief Performance Yahoo!, collected these best practices while optimizing some of the most-visited pages on the Web. Even sites that had already been highly optimized, such as Yahoo! Search and the Yahoo! Front Page, were able to benefit from these surprisingly simple performance guidelines. The rules in High Performance Web Sites explain how you can optimize the performance of the Ajax, CSS, JavaScript, Flash, and images that you've already built into your site -- adjustments that are critical for any rich web application. Other sources of information pay a lot of attention to tuning web servers, databases, and hardware, but the bulk of display time is taken up on the browser side and by the communication between server and browser. High Performance Web Sites covers every aspect of that process. Each performance rule is supported by specific examples, and code snippets are available on the book's companion web site. The rules include how to: Make Fewer HTTP Requests Use a Content Delivery Network Add an Expires Header Gzip Components Put Stylesheets at the Top Put Scripts at the Bottom Avoid CSS Expressions Make JavaScript and CSS External Reduce DNS Lookups Minify JavaScript Avoid Redirects Remove Duplicates Scripts Configure ETags Make Ajax Cacheable If you're building pages for high traffic destinations and want to optimize the experience of users visiting your site, this book is indispensable. "If everyone would implement just 20% of Steve's guidelines, the Web would be dramatically better place. Between this book and Steve's YSlow extension, there's really no excuse for having a sluggish web site anymore." -Joe Hewitt, Developer of Firebug debugger and Mozilla's DOM Inspector "Steve Souders has done a fantastic job of distilling a massive, semi-arcane art down to a set of concise, actionable, pragmatic engineering steps that will change the world of web performance." -Eric Lawrence, Developer of the Fiddler Web Debugger, Microsoft Corporation

Logo Lounge 2 Feb 02 2021 Packed with 2,000 logos from world-class designers. This book takes all the logos that were in Rockport Publisher's best-seller, Logo Lounge 2, and collects them in one small, neat, pictorial handbook for easy reference. There are no lengthy case histories, just logos, logos, and more logos. It's a fast-paced book featuring one to six logos per page to allow designers to easily shop for ideas. Logos are among the most important elements a designer can create, so it is no surprise that they are always looking for new, fresh ideas. LogoLounge 2 delivers just that. Its predecessor showcased the logos along with the stories of how they came to be; this compact version puts the spotlight on the logos alone, making it the perfect handbook to logo design.

Cradle of Islam Mar 18 2022 Is Saudi Arabia really a homogeneous Wahhabi dominated state? In 1932 the Al Saud family incorporated the kingdom of Hijaz, once the cultural hub of the Arabian world, in to the kingdom of Saudi Arabia. The urban, cosmopolitan Hijazis were absorbed in to a new state whose codes of behavior and rules were determined by the Najdis, an ascetic desert people, from whom the Al Saud family came. But the Saudi rulers failed to fully integrate the Hijaz, which retains a distinctive identity to this day. In "Cradle of Islam", the product of years spent in Mecca, Medina, Jeddah and Taif, Mai Yamani traces the fortunes of the distinctive and resilient culture of the Hijazis, from the golden age of Hashemite Mecca to Saudi domination to its current resurgence. The Hijazis today emphasise their regional heritage in religious ritual, food, dress and language as a response to the 'Najdification' of everyday life. The Hijazi experience shows the vitality of cultural diversity in the face of political repression in the Arab world.

We Are Human Angels Jun 28 2020 When we live in the ego, we are human. When we live in the Awareness of the Oneness, we are Human Angels. Are you a Human Angel? Human Angels are souls who have chosen to be born now on this planet to awaken themselves and humanity to Unconditional Love and the Awareness of the Oneness. If you feel that you have a special talent to help others, if you feel you were born for a greater purpose and would like to express it, you are probably a Human Angel. The 7 Keys to overcome the ego and The 7 keys to live with the heart in service to the Oneness will guide you, step by step, in your journey from the ego and suffering until the fulfillment of your true nature as a Human Angel. We are Human Angels is also an awakening call for you and for all the Human Angels of the planet. The time has come to turn on our inner lights in order to lead humanity from the world of the ego (that has begun its dramatic fall) to the world of the Oneness, that is Heaven on earth

The Vinyl Cafe Notebooks Aug 23 2022 Selected from 15 years of radio-show archives and re-edited by the author, this wonderfully eclectic essay collection gives a glimpse into the thoughtful mind at work behind "The Vinyl Cafe." From meditations on peacekeeping to praise for the toothpick, "The Vinyl Cafe Notebooks" runs the gamut from considered argument to light-hearted opinion. Whether McLean is visiting a forgotten corner of the Canadian Shield, a big-city doughnut factory, or Sir John

A. Macdonald's gravesite, his observations are absorbing, unexpected, and original. With thought-provoking proposals about the world we live in and introductions to the people he meets in his extensive travels across our country, "The Vinyl Cafe Notebooks" is informed by McLean's intimate relationship with Canada and Canadians. Yet the collection is also an intriguing look at the writer himself--his past, his present, and his vision of the future. Sometimes funny, often wise, and always entertaining, "The Vinyl Cafe Notebooks" is sure to provide a wealth of reading pleasure that fans will return to again and again.

The Way of the Physician Aug 30 2020 The Way of the Physician brims with rich stories, telling observations, trenchant analysis, tough questions, and high drama, all a result of philosopher Jacob Needleman's intense discussions with doctors and other health professionals about the ideals and challenges of their profession. Needleman addresses the spiritual issues that, in the past, were much more in the foreground of doctor/patient relationships. He confronts difficult topics, including physician responsibility, the overwhelming technological innovations which have changed medicine, and the ever-more-prominent financial issues inherent in contemporary healthcare. In the book's final section, the author addresses the reader, through a series of stories that reflect a real patient's issues with respect to all aspects of healthcare, with special focus on the spiritual dimension. The new introduction for this special edition specifically addresses the contemporary medical world of complex technology, specialization and commercialization.

The Sense of Wonder Jan 16 2022 First published a half-century ago, Rachel Carson's award-winning *The Sense of Wonder* remains the classic guide to introducing children to the marvels of nature. In 1955, acclaimed conservationist Rachel Carson—author of *Silent Spring*—began work on an essay that she would come to consider one of her life's most important projects. Her grandnephew, Roger Christie, had visited Carson that summer at her cottage in Maine, and together they had wandered the surrounding woods and tide pools. Teaching Roger about the natural wonders around them, Carson began to see them anew herself, and wanted to relate that same magical feeling to others who might hope to introduce a child to the beauty of nature. "If a child is to keep alive his inborn sense of wonder," writes Carson, "he needs the companionship of at least one adult who can share it, rediscovering with him the joy, excitement and mystery of the world we live in." Now available in paperback, *The Sense of Wonder* is a timeless volume that will be passed on from generation to generation, as treasured as the memory of an early-morning walk when the song of a whippoorwill was heard as if for the first time. Featuring serene color photographs from renowned photographer Nick Kelsh, "this beautifully illustrated edition makes a fine gift for new and prospective mothers and fathers" (Gregory McNamee), and helps us all to tap into the extraordinary power of the natural world.

The Rapids of a Great River Oct 01 2020 *The Rapids of a Great River* begins with selections from the earliest known Tamil poetry dating from the second century CE. The writings of the Sangam period laid the foundation for the Tamil poetic tradition, and they continue to underlie and inform the works of Tamil poets even today. The first part of this anthology traverses the Sangam and bhakti periods and closes with pre-modern poems from the nineteenth century. The second part, a compilation of modern and contemporary poetry, opens with the work of the revolutionary poet Subramania Bharati. Breaking free from prescriptions, the new voices—which include Sri Lankan Tamils, women and dalits, among others—address the contemporary reader; the poems, underscored by a sharp rhetorical edge, grapple with the complexities of the modern political and social world. The selection is wide-ranging and the translations admirably echo the music, pace and resonance of the poems. This anthology links the old with the new, cementing the continuity of a richly textured tradition. There is something in the collection for every reader and each will make his or her own connections—at times startling, at other times familiar.
