[Fabric of the Game](#) May 07 2021 An in-depth look into the origins of how each NHL team was named, received their logo and design, with interviews by those responsible. Written by those most knowledgeable, you'll learn why every hockey team to every play in the National Hockey League looks the way it does. Nothing unites or divides a random assortment of strangers quite like the hockey team for which they cheer. The passion they hold within them for the New York Rangers, Toronto Maple Leafs, Montreal Canadiens, or Boston Bruins allows them to look past any differences which would have otherwise disrupted a perfectly fine Thanksgiving dinner and channels it into a powerful, shared admiration for their team. We decorate our lives with their logos, stock our wardrobe with their jerseys, and, in some cases, even tattoo our bodies with their iconography and colors. They're so ingrained in our lives we don't even think to ask ourselves why Los Angeles celebrates royalty; why Buffalo cheers for not one, but two massive cavalry swords; or why the Broadway Blueshirts named themselves for a law enforcement agency in Texas (or why they even wear blue shirts, for that matter). All that and more is explored in *Fabric of the Game*, authored by two of the sports world's leading experts in team branding and design: Chris Creamer and Todd Radom. Tapping into their vast knowledge of the whys and hows, Creamer and Radom explore and share the origin stories behind these and more, talking directly to those

involved in the decision processes and designs of the National Hockey League's team names, logos, and uniforms, pouring through historical accounts to find and deliver the answers to these questions. Learn more about the storied Detroit Red Wings and Chicago Blackhawks, as well as the lost but not forgotten Hartford Whalers and Quebec Nordiques, all the way to the lesser-known Kansas City Scouts and Philadelphia Quakers. Whichever team you pledge allegiance, *Fabric of the Game* covers them in-depth with research and knowledge for any hockey fan to enjoy.

Who's Who in Canadian Business 2001 Mar 05 2021 *Who's Who in Canadian Business*, now in its 21st year, is a comprehensive and independent guide to Canada's business elite. Listing over 5,000 corporate and entrepreneurial leaders, each with a detailed biography and contact information, this directory is an excellent resource for anyone needing information on Canada's business world. Biographies include such information as current employment, address, education, career history, publications, favourite charities, and honours. Those listed are included because of the positions they hold in Canadian business and industry, or because of the contributions they have made to business in Canada. The directory is updated annually; new and updated biographies are marked for easy reference. All biographies are indexed by company name. Included in this edition is the PROFIT 100 / Next 100 listing of Canada's fastest-growing companies, as well as a list of professional associations, each with full address, contact names, and a brief description.

Human Interface and the Management of Information: Applications and Services Dec 02 2020 The two-volume set LNCS 9734 and 9735 constitutes the refereed proceedings of the Human Interface and the Management of Information thematic track, held as part of the 18th International Conference on Human-Computer Interaction, HCII 2016, held in Toronto, Canada, in July 2016. HCII 2016 received a total of 4354 submissions of which 1287 papers were accepted for publication after a careful reviewing process. These papers address the latest research and development efforts and highlight the human aspects of

design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas This volume contains papers addressing the following major topics: communication, collaboration and decision-making support, information in e-learning and e-education, access to cultural heritage, creativity and art, e-science and e-research, information in health and well-being. *The History of Professional Hockey in Victoria* Mar 29 2023 *The History of Professional Hockey in Victoria* is an in-depth examination of professional hockey in Victoria. It includes details on the different leagues, statistics on every game played by a Victoria team, and information on every player to dress for at least one regular season game. From the Patrick family to RG Properties, this book covers the ownership of teams and records the highlights and low points of every team. It was produced as a "thank-you" to the players who entertained Victorians over a century, giving us reason to cheer on many occasions and to be disappointed as well. Victoria enjoyed three championships, including the Stanley Cup victory in 1925. Little did the Cougars know that they would go down in history as the last non-NHL team to win the Stanley Cup, and the last non-NHL team to play in a Stanley Cup series. They were also the last West Coast team to win the Stanley Cup until Anaheim did it in 2007. The 1950-51 Cougars, led by their "kid line" of Andy Heberton, Bob Frampton, and Reg Abbott, won the league title while the Maple Leafs (with Heberton in the lineup) won the Lester Patrick Cup in the 1965-1966 season. Included in the narrative is the story of the construction and operation of the different venues in which games were played. The politics behind arena construction are examined as well, with editorial cartoons to make the reader laugh about the folly of some ideas. Biographies of selected players tell the story of individuals and how they came to play hockey in Victoria. Learn from behind-the-scenes stories told by the players themselves. Lavishly illustrated, this is a book for those who love hockey history and its connection to Victoria, BC.

[Cobalt](#) Jan 27 2023 The world is desperate for cobalt. It drives the proliferation of digital and clean technologies. But this "demon metal" has a horrific present and a troubled history. The modern search for cobalt has brought investors back to a small town in Northern Canada, a place called Cobalt. Like the demon metal, this town has a dark and turbulent history. The tale of the early-twentieth-century mining rush at Cobalt has been told as a settler's adventure, but Indigenous people had already been trading in metals from the region for two thousand years. And the events that happened here — the

theft of Indigenous lands, the exploitation of a multicultural workforce, and the destruction of the natural environment — established a template for resource extraction that has been exported around the world. Charlie Angus reframes the complex and intersectional history of Cobalt within a broader international frame — from the conquistadores to the Western gold rush to the struggles in the Democratic Republic of Congo today. He demonstrates how Cobalt set Canada on its path to become the world's dominant mining superpower.

Hockey Feb 28 2023 Now in paperback, updated with a new final chapter! Lavishly illustrated, beautifully designed, impeccably researched, and wonderfully written, *Hockey: A People's History* is the altogether irresistible companion book to the CBC-Television series of the same name, airing in Fall 06. A must-have for every fan! Hockey is not just Canada's national game, it is part of every Canadian's psyche, whether we like it or not. Watching it, playing it, coaching it, and talking about it are up there with eating on the list of the top ten things Canadians do most. In the first half of the last century it mirrored our increasing confidence as a nation and in the last years of the 1900s, which saw an aggressive but unsettling expansion of the game south of the border, it reflected our growing wariness of American influence on Canada. *Hockey: A People's History*, like the ten-part CBC series it accompanies, tells the story of this breathtakingly fast game from its hotly contested origins, and the surge in its popularity after 1875, when it was first taken inside, through the rise and fall and rise again of women's hockey, the sagas of long-lost leagues, such as the Pacific Coast Hockey League and, more recently, the World Hockey Association, to the present day and the first-ever lockout of players by the one remaining league. In that time, while play has changed only slightly (every generation of Canadians has complained about the growing violence of the game) hockey itself has been transformed from a rough and ready winter sport to a business worth many billions of dollars, played by millionaires. But *Hockey: A People's History* is not a business story, rather, it is the story of the men and woman who helped make the game what it is today. It also tells the story of all the great moments in hockey: not just the unforgettable 1972 victory against Russia, but victories no less glorious at the time, such as the Leafs' previously unheard-of third consecutive Stanley Cup in 1949. Through its lavishly illustrated pages skate the players, the coaches, the owners, many of them still legendary, too many of them almost forgotten. They are the reason why Canadians have stayed true to the game.

The Proposal Economy May 27 2020 In 2001 the northern Ontario town of Cobalt won a competition to be named the province's "Most Historic Town." This honour came as Cobalters were also applying for and winning federal and provincial development grants to remake this

once important silver mining centre. This book, based on extended ethnographic and multi-method research, examines the multiple ways that development proposal writing is intertwined with neoliberal citizenship. The authors argue that the citizens of Cobalt have become entrenched in a "proposal economy," a system that empowers them to imagine, engage, and propose but not to count on the state to provide certain services.

Lemon-Aid New Cars and Trucks 2012 Jan 23 2020 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) **Lemon-Aid's 2011-12 Endangered Species List:** the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

The National Hockey League, 1917-1967 Nov 25 2022 This is a statistical history of the National Hockey League in its first 50 seasons. It provides every statistic for every player for every game, including playoff games. A full introduction puts the tremendous amount of data contained within the book in its historical context, and each chapter then recounts a single season. An explanatory essay illuminating the most important attributes of a particular season introduces each chapter. *The Complete Encyclopedia of Hockey* Jul 29 2020 The NHL from its first season (1917-18) to its most recent (1991-92) and one of its most dramatic--here's the whole colorful, controversial story. Now completely updated for the 100th anniversary celebration of the Stanley Cup, this directory is a must-have for the sports enthusiast. 200 photos.

The Fastest Game in the World May 19 2022 Played on frozen ponds in cold northern lands, hockey seemed an especially unlikely game to gain a global following. But from its beginnings in the nineteenth century, the sport has drawn from different cultures and crossed boundaries--between Canada and the United States, across the Atlantic, and among different regions of Europe. It has been a political flashpoint within countries and internationally. And it has given rise to far-reaching cultural changes and firmly held traditions. *The Fastest Game in the World* is a global history of a global sport, drawing upon research conducted around the world in a variety of languages.

From Canadian prairies to Swiss mountain resorts, Soviet housing blocks to American suburbs, Bruce Berglund takes readers on an international tour, seamlessly weaving in hockey's local, national, and international trends. Written in a lively style with wide-ranging breadth and attention to telling detail, *The Fastest Game in the World* will thrill both the lifelong fan and anyone who is curious about how games intertwine with politics, economics, and culture.

The Legendary Game - Ultimate Hockey Trivia Mar 17 2022 Tom has been researching hockey for the past 35 years. Montreal Canadiens Apr 06 2021 In 1917, the Montreal Canadiens became one of the four founding teams of the National Hockey League. Since then, the team has enjoyed countless breathtaking triumphs. Not only have they won more Stanley Cup Championships than any other team in the NHL, they have also boasted some of the best players the league has ever seen. Through it all, they have maintained a fan following that is unparalleled in its fierce devotion and pride. This is the story of the Montreal Canadiens -- the most successful sports franchise in North America.

J.P. Bickell Nov 13 2021 He stayed out of the spotlight, but Leafs fans know J.P. Bickell cast a long shadow. A self-made mining magnate and the man who kept the Maple Leafs in Toronto and financed Maple Leaf Gardens, J.P. Bickell lived an extraordinary and purposeful life. As one of the most important industrialists in Canadian history, Bickell left his mark on communities across the nation. He was a cornerstone of the Toronto Maple Leafs, which awards the J.P. Bickell Memorial Award to recognize outstanding service to the organization. Bickell's story is also tied up with some of the most famous Canadians of his day, including Mitchell Hepburn, Roy Thomson, and Conn Smythe. Through his charitable foundation, he has been a key benefactor of the Hospital for Sick Children, and his legacy continues to transform Toronto. Yet, though Bickell was so important both to Toronto and the Maple Leafs, the story of his incredible life is today largely obscure. This book sets the record straight, presenting the definitive story of his rise to prominence and his lasting legacy — on the ice and off.

Uncle John's Bathroom Reader: Shoots and Scores Jun 08 2021 Uncle John's hard-hitting hockey book was such a success that we decided to send it back to the weight room to get beefed up for a new season. The Montreal Canadiens Feb 16 2022
National Bestseller The definitive history of the Montreal Canadiens - now updated with the inside story of the tumultuous 2009 season. Before there were slapshots, Foster Hewitt, or even an NHL, there were the Canadiens. Founded on December 4, 1909, the team won its first Stanley Cup in 1916. Since then, the Canadiens have won 23 more championships, making them the most successful hockey team in the world. The team has survived two wars, the Great Depression, NHL expansion, and countless other upheavals, thanks largely to the loyalty of fans and an extraordinary cast of players, coaches, owners, and managers. The Montreal Canadiens captures the full glory of this saga. It weaves the personalities, triumphs, heartaches, and hysteria into a compelling narrative with a surprise on every page. It sheds new light on old questions - how the team colours were chosen, how the Canadiens came to be known as the Habitants - and goes behind the scenes of tumultuous recent events still awaiting thorough examination: why Scotty Bowman was passed over as general manager after Sam Pollock resigned; why Pollock's successor, Irving Grunman, failed; why Serge Savard was dumped as GM so hastily despite his record. Colourful and controversial, The Montreal Canadiens is the history of a team that has been making news for 100 years - and continues to do so with the return of legendary player Bob Gainey as general manager, determined to bring the Stanley Cup back to Montreal.

Laurentian University Review Jun 27 2020
Changing Places Oct 24 2022
Changing Places examines the process by which a relatively coherent community emerged in the sub-region of Northern Ontario bounded by Timmins, Iroquois Falls, and Matheson. Using archival, oral, and newspaper sources, Kerry Abel offers the only comprehensive history of the area. She rejects traditional sociological and anthropological models about community and identity in favour of a more nuanced interpretation that takes historical process into account.

Capitals, Aristocrats, and Cougars Sep 30 2020
A fascinating and in-depth look at Victoria's largely unknown professional hockey players in the early twentieth century, and the historical context in which they played. For most hockey fans hailing from Canada's westernmost province, the sport's most coveted prize, the Stanley Cup, has remained frustratingly elusive for nearly a century. But what many people do not know is that the west coast, and in

particular the city of Victoria, was once a hockey mecca, where superstars flourished, Hall of Famers were made, and big victories—yes, even the Stanley Cup of 1925—were won. *Capitals, Aristocrats, and Cougars* is a deep dive into the world of professional hockey in Victoria from 1911 to 1925, an era that saw forty-nine men take their turns in one of the city's newly minted teams. It was also an era of unprecedented social, economic, and political change, a period that spanned the First World War and redefined Canada's national identity. With meticulous research and encyclopedic knowledge, author, historian, and consummate hockey fan Alan Livingstone MacLeod chronicles the key players, coaches, arena builders, and team visionaries who contributed to this long-forgotten chapter of hockey history, and puts them all in the context of what was going on in the world at the time. This in-depth account is sure to delight history buffs and hockey fans alike.
