Old Homes, New Life Oct 10 2021 - Each of the 12 houses will be featured in national and international press to announce the book- In the UK, the media includes Tatler, House & Garden, Country Life, The English Home, and Telegraph Luxury Online- In the US, the media includes Town

& Country, Architectural Digest Online, The AD Aesthete Podcast, Air Mail, and Departures This book is a sumptuously produced journey around 12 privately-owned country houses, asking what it is like to live in such places today. What role do they play in the 21st century? For many years after the Second World War, the country house was struggling. Now a new generation of young owners, often with children, has taken over. They're finding innovative ways to live in these ancient, fragile and poetic places. While they treasure the history and beauty of the houses, they're also adapting and enhancing them for a modern era. *Old Homes, New Life* is a behind-the-scenes account of today's aristocracy, as they reinvent the country house way of life. Each family does this in its own way, maintaining the tradition of individualism, even eccentricity, which is so much associated with country houses. Dylan Thomas's superb yet intimate photographs capture both the inhabitants of these houses and the spaces they occupy - from State dining to family kitchen, walled garden to attic. This feast for the eyes is accompanied by an equally mouth-watering text by Clive Aslet, based on interviews with family members and his long experience of the subject through his years as editor of *Country Life*. The result is an exclusive tour of a dozen spectacular homes.

Dante's New Life of the Book Feb 26 2023 Dante's *Vita nuova* has taken on a wide variety of different forms since its first publication in 1294. How could one work have generated such different physical forms? Through examining the work's transformations in manuscripts, printed books, translations, and adaptations, Eisner reconceives of the relationship between the work and its reception. *Dante's New Life of the Book* investigates how these different material manifestations participate in the work, drawing attention to its distinctive elements. Dante framed his book as an attempt to understand his own experiences through the experimental form of the book, and later scribes, editors, and translators use different material forms to embody their interpretations of Dante's collection of thirty-one poems surrounded by prose narrative and commentary. Traveling from Boccaccio's Florence to contemporary Hollywood with stops in Emerson's Cambridge, Rossetti's London, Nerval's Paris, Mandelstam's Russia, De Campos's Brazil, and Pamuk's Istanbul, this study builds on extensive archival research to show how Dante's strange poetic forms, including incomplete canzoni and sonnets with two beginnings, continue to challenge readers. Each chapter focuses on how one of these distinctive features has been treated over time, offering new perspectives on topics such as Dante's love of Beatrice, his relationship with Guido Cavalcanti, and his attraction to another woman. Numerous illustrations show the entanglement of the work's poetic form and its material survival. Eisner provides a fresh reading of Dante's innovations, demonstrating the value of this philological analysis of the work's survival in the world.

E. M. Forster Feb 02 2021 Based on exclusive access to E. M. Forster's previously restricted diaries this scrupulously researched and sensitively written biography is the first to put the fact that he was homosexual back at the heart of his story.

The Novel and the Problem of New Life Feb 20 2020 The novel since the nineteenth century has displayed a thorny ambivalence toward the question of having children. In its representation of human vitality it can seem to promote the giving of life, but again and again it betrays a nagging doubt about the moral implications of procreation. *The Novel and the Problem of New Life* identifies this tension as a defining quality of the modern British and European novel. Beginning with the procreative-skeptical writings of Flaubert, Butler, and Hardy, then turning to the high modernist work of Lawrence, Woolf, and Huxley, and culminating in the postwar fiction of Lessing and others, this book chronicles the history of the novel as it came to accommodate greater misgivings about the morality of reproduction. This is the first study to examine in literature a problem that has long troubled philosophers, environmental thinkers, and so many people in everyday life.

New Life, No Instructions Feb 14 2022 The Pulitzer Prize winner and New York Times bestselling author of *Let's Take the Long Way Home* now gives us a stunning, exquisitely written memoir about a dramatic turning point in her life, which unexpectedly opened up a world of understanding, possibility, and connection. *New Life, No Instructions* is about the surprising way life can begin again, at any age. Look for special features inside. Join the Random House Reader's Circle for author chats and more. "What do you do when the story changes in midlife? When a tale you have told yourself turns out to be a little untrue, just enough to throw the world off-kilter? It's like leaving the train at the wrong stop: You are still you, but in a new place, there by accident or grace, and you will need your wits about you to proceed. "Any change that matters, or takes, begins as immeasurably small. Then it accumulates, moss on stone, and after a few thousand years of not interfering, you have a glen, or a waterfall, or a field of hope where sorrow used to be. "I suppose all of us consider our loved ones extraordinary; that is one of the elixirs of attachment. But over the months of pain and disrepair of that winter, I felt something that made the grimness tolerable: I felt blessed by the tribe I was part of. Here I was, supposedly solo, and the real truth was that I had a force field of connection surrounding me. "Most of all I told this story because I wanted to say something about hope and the absence of it, and how we keep going anyway. About second chances, and how they're sometimes buried amid the dross, even when you're poised for the downhill grade. The narrative can always turn out to be a different story from what you expected." Praise for *New Life, No Instructions* "Brimming with insights and wisdom . . . As far as I'm concerned, Caldwell can write about whatever she pleases. . . . Unabashed dispatches from lifelong single women are a fairly recent phenomenon. The Signs For A New Life Jun 06 2021 The writer presents with innumerable details this incredible narrative as an autobiography and as a testimony of his recent medical experiences that includes two surgeries he had suffered in the last few years. In a much-simplified way, he endeavors to explain the relationship that exists between the signs he had been receiving and his illnesses. Even though he has had a successful life, he feels that somehow he is not completely happy with the results. Throughout his journey, he discovers that there are no coincidences in life and that everything happens for a reason. He also finds out that God is always trying to communicate with him, and us, by way of many different signs and messages; however due to our busy schedules, we don't often listen to them, or tend to discard them as unimportant. For many months, the author suffers an internal transformation that unexpectedly makes him happy and which also allows him to experience a gradual change in his spirituality. The inner changes and spiritual evolution that he sees from within motivates and gives him a new purpose for living. He also realizes the immense need to give thanks to God every day for all the blessings he has received. As this exciting drama unfolds, and consequences develop after being able to decipher the meaning of the signs and finding out that God had truly been with him throughout his life, he considers it a duty and a promise to God to explain his testimony in writing, not only for his family and friends but for anyone who desires a spiritual transformation. The story contemplates the universal human questions of how, when, why, what, and where this experience could take place. This narrative is a true story written without exaggeration or drama. The story is a testimony of what actually happened to the author and is therefore identified with our human spirituality, obviously by making a great emphasis on the importance and of the need to find God. His story, *The Signs for a New Life*, perhaps to some, might be controversial due to the reader's own speculations, ideas, perceptions, and, certainly, religious beliefs.

Parade's End Apr 04 2021 This monumental novel, divided into four separate books, celebrates the end of an era, the irrevocable destruction of the comfortable, predictable society that vanished during World War I.

King and Emperor Oct 30 2020 Charles I, often known as Charlemagne, is one of the most extraordinary figures ever to rule an empire. Driven by unremitting physical energy and intellectual curiosity, he was a man of many parts, a warlord and conqueror, a judge who promised 'for each their law and justice', a defender of the Latin Church, a man of flesh-and-blood. In the twelve centuries since his death, warfare, accident, vermin, and the elements have destroyed much of the writing on his rule, but a remarkable amount has survived. Janet Nelson's wonderful new book brings together everything we know about Charles, sifting through the available evidence, literary and material, to paint a vivid portrait of the man and his motives. Charles's legacy lies in his deeds and their continuing resonance, as he shaped counties, countries, and continents, founded and rebuilt towns and monasteries, and consciously set himself up not just as King of the Franks, but as the head of the renewed Roman Empire. His successors--in some ways even up to the present day--have struggled to interpret, misinterpret, copy, or subvert his legacy.

The New Life of Hugo Gardner Jan 21 2020 Beloved author Louis Begley returns to the monied halls of the Upper East Side with a sharp new comedy of manners. Divorced after decades of comfortable marriage, retired journalist Hugo Gardner sets out to explore paths not travelled. After four decades of what he believes to be a happy, healthy partnership, Hugo Gardner's world is overturned when he learns that his wife, Valerie, is not only requesting a divorce but has left him for a younger, more vital man. Hugo, an octogenarian political writer and retired journalist for Time, must rethink the way he's lived, and reassess how he'd like to spend his remaining years. Reconsidering past relationships in his mind, with years of distance, Hugo begins to see things in a new light: Valerie, whose youth and ambition eventually came between them; his children, whose support might be more financially than emotionally motivated; and his friends, who, like him are rapidly aging before his very eyes. With an ominous oncologist's report hanging over his head, Hugo decides to get away for a bit, to a conference in Paris. There, a new romance blooms and Hugo finds himself wondering if growing old in Paris might be the perfect antidote to the drama he left behind in New York. Unflinching, witty, and urbane as ever, Louis Begley delivers a spot-on satire of the world of New York's aging elite, and uncovers the unexpected delights a late-in-life change can offer.
