Ambitious in nature, the Istanbul Programme of Action (IPoA) for the Least Developed Countries (LDCs) adopted by the Fourth United Nations Conference on the LDCs (UN LDC IV) in 2011, sets out a development path for LDCs for the coming decade. Successful implementation of the IPoA requires identification of delivery tools for specific targets, provision of necessary financial and non-financial resources, and a strengthened monitoring mechanism. LDC IV Monitor, an independent partnership of eight interested organisations, aims to add value by enhancing transparency, accountability and efficiency of the official monitoring and review mechanism of the IPoA. LDC IV Monitor's first set of two reports, produced outside of the official intergovernmental process, provide credible, evidence-based and policy-oriented assessment of the delivery status of the promises contained in the IPoA. The Synthesis Report, derived from the critical analyses of the state of play concerning the IPoA, presents the broad messages and key recommendations. The volume on Analytical Perspectives addresses a wide spectrum of issues including articulation of a composite IPoA index, building of productive capacity, trade in goods and services, delivery of the Millennium Development Goals (MDGs), flows of different forms of development finance, and consequences of climate change. The publications seek to contribute towards crafting national and international policies to support graduation of the LDCs through structural transformation of their economies. How does target setting influence policy priorities of national governments, bilateral donors, multilateral agencies, NGOs, and other stakeholders? What are the intended and unintended consequences? Why is the use of numeric indicators effective? How does quantification reshape meanings of challenges such as women's empowerment? Building on 11 case studies and a conceptual framework, this book provides a goal-by-goal analysis by leading specialists in the relevant fields. These specialists analyse the choices made, as well as the empirical and normative effects of the MDGs to offer insights for a more rigorous use of indicators and cautions on their limitations and perverse consequences. This report, however, embraces a vision of hope: one that illustrates the many ways in which the region can act to ensure its future security and prosperity. It envisages a day when authoritarianism, occupation, foreign domination and all forms of discrimination end. A vision of human development and economic prosperity implies that citizens are free to voice their opinions and practice their beliefs without fear, the rule of law applies equally to all, and the basic necessities for a decent life are affordable even for the least fortunate. It calls for choices to be made in order to lay the foundations of an inclusive society, so as not to slip further into a spiral of deepening violence, instability and recession that would undermine development for generations to come. This report presents a vision of improved governance, advanced social justice and human well-being, transformed economies, and intensified regional integration; in short, an Arab region at peace, stable and prosperous.
